Upgraded, Excellence

Professional grinding system

Equipped with imported 64mm commercial-grade special steel flat burr, stable and durable; 9-level grinding adjustment for uniform and fine coffee grounds.

Ease maintenance

Multiple intelligent cleaning functions, including one-touch auto-cleaning and scheduled auto-cleaning; brewer designed for quick disassembly; smart bean detection.

Selectable brewer capacities

Designed to be compatible with both JETINNO S14 and S20 coffee brewers with different capacity specifications, considering various customer usage scenarios and coffee recipe requirements.

Steel flat burr

Fresh milk frothing

Espresso brewing

Detachable brewer

Auto cleaning

Bean detection

Large capacity

Selectable water tank

Single/dual cup

10+Drinks

45s fast production

Remote control

More Than Classic

Ingeniously Exceptional Design

2 x instant boilers

1 x hot fresh milk frothing module

1 x piston pump

1L drip tray
(full water detection, optional waste water drainage)

1 x SGH64 grinder

1xS14 espresso brewer
(optional S20)

*Patent no:ZL 2022 2 0590506.2

1 x waste bin
(max 40 cakes)

Special steel flat grinding burrs

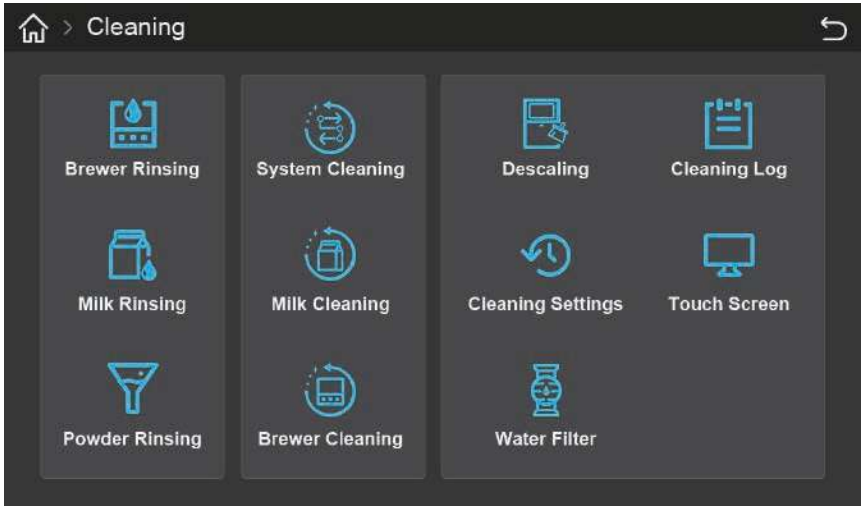

64mm professional-grade imported steel burrs for impact resistance and quick heat dissipation, preserving coffee flavor.

Professional milk frothing system

With a dual boiler design for hot water and steam, it rapidly creates silky and dense milk froth, enhancing the creamy texture of milk-based coffee beverages.

Reliable components

With instant boilers, piston pumps, and commercial grade valves, ensuring excellent stability and prolonged lifespan.

Snap-on design brewer

The coffee brewer can be quickly disassembled from the front for deep cleaning, preventing coffee oils from clogging the filter and affecting the coffee extraction.

14g/20g espresso brewer

The coffee brewer offers two options for brewing chamber capacity, with 14g and 20g specifications, meeting different scenarios' requirements for varying coffee ground weights.

Pre-infusion

Allows for a controlled wetting of the coffee grounds before extraction. This helps to enhance the flavor extraction process and ensure a well-balanced and flavorful cup of coffee.

JETINNO

JL29A
Commercial espresso maker

Daily Output: 100 Cups/Daily

Drinks Outpt(based on protocol DIN18873-2 hourly output)

Espresso:90 American:65
Hot water:120

Patent Brewing Technology

With a patented brewer, high-pressure brewing chamber, anti-gravity extraction, always enjoys the richness of coffee oils.

9 grinding size

Selected 64mm imported special metal grinding flat burr, fresh coffee powder coarseness stable and consistent.

Detachable design for easy cleaning

Detachable water drip tray, brewer snap-on design, can be quickly removed, easy to clean.

JL29B
Commercial espresso coffee machine

Daily Output: 100 Cups/Daily

Drinks Outpt(based on protocol DIN18873-2 hourly output)

Espresso:90 American:65
Hot water:120

Freshly Ground Black Coffee

Patented brewer optional 14/20 grams, with 64mm metal grinding flat burr, easily meet the different coffee flavour requirements.

7-inch vertical screen design

Up and down screen menu design, friendly customer interface and operator interface, the operation is more convenient and smooth.

One click dual cups

All beverages feature a one-touch dual-cup function, one time waiting, two times enjoy.

JL30
Commercial fresh milk coffee machine

Daily Output: 100 Cups/Daily

Drinks Outpt(based on protocol DIN18873-2 hourly output)

Espresso:90	American:65
Cappuccino:65	Hot water:120

Freshly extracted smooth taste

Freshly ground coffee beans, perfect extraction, this machine allows you to enjoy over 15 varieties of black and milk coffee beverages.

Dual-system efficient cleaning

Intelligent backend, capable of setting up automatic cleaning for all pipelines upon startup, scheduled cleaning, timed cleaning, one-touch cleaning.

Remote machine management

Real-time machine status, consolidated sales order records, intelligent reminders for bean and water shortages.

JL31A

Commercial efficient fresh milk coffee machine

Daily Output: 100 Cups/Daily

Drinks Outpt(based on protocol DIN18873-2 hourly output)

Espresso:90	American:65
Cappuccino:90	Hot water:120

One-touch Milk Coffee

With a dual-pump, dual-boiler design, it can simultaneously produce coffee and frothed fresh milk, enabling rapid cup delivery and effortlessly handling high demand during peak periods.

Details Design

Equipped with an independent hot water wand, adjustable water spout height from 80 to 160mm, 9-level adjustable grind fineness, detachable drip tray for easy cleaning.

Multiple Water Supply

Comes with a standard 8L built-in water tank and the option for bucket water supply, city water, allowing for easy switching.

JL31B

Commercial 10”screen fresh milk coffee machine

Daily Output: 100 Cups/Daily

Drinks Outpt(based on protocol DIN18873-2 hourly output)

Espresso:90	American:65
Cappuccino:90	Hot water:120

One-Touch Milk Coffee

Featuring a dual-pump, dual-boiler design, it can cater to the simultaneous production of coffee and frothed fresh milk, ensuring swift cup delivery and effortless management of peak demand.

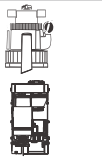

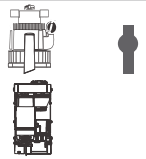

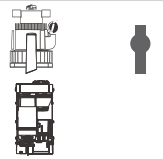

Large Screen

Designed with a 10-inch large screen that seamlessly integrates with the elegant exterior design, further accentuating its high-end quality.

Detachable Brew Unit

The patented brew unit with a snap-on design, making it easy to remove and install. You can detach the brew unit in few seconds for convenient cleaning whenever needed.

*Materials marked for canisters above are customizable

Intimate Design, Delicious Coffee

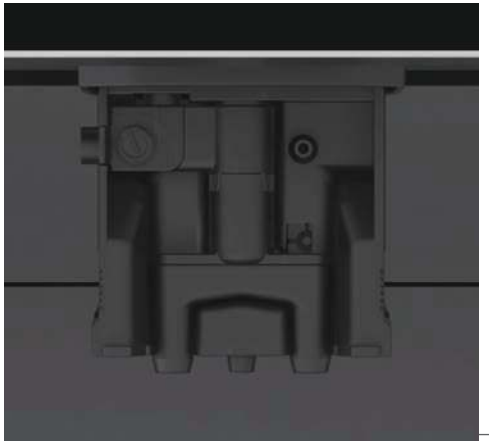

One-touch dual-cup

One-touch for black coffee and milk coffee, enjoy a double delight.

Adjustable spout height

Height range 80-160mm, accommodating various cup sizes.

Detachable milk frothing module

Easy for deep cleaning, preventing hygiene issues.

Fits large and small tanks

Offering 8L/2L water tanks options to suit various scenarios.

Smart and Swift Cleaning

Self-detective

Automatically initiates comprehensive cleaning, covering all components and milk tubes for a thorough 360° cleaning.

Scheduled cleaning

Set cleaning intervals for automatic whole machine cleaning, offering smart and worry-free maintenance.

Automatic milk path cleaning

Timed automatic cleaning of the milk path to prevent milk residue and bacteria buildup.

Individual component cleaning

One-click cleaning for specific brewing components, reducing cleaning time and water usage.

Deep tablet cleaning

Supports manual tablet usage and automatic descaling function, ensuring comprehensive and thorough machine cleaning.

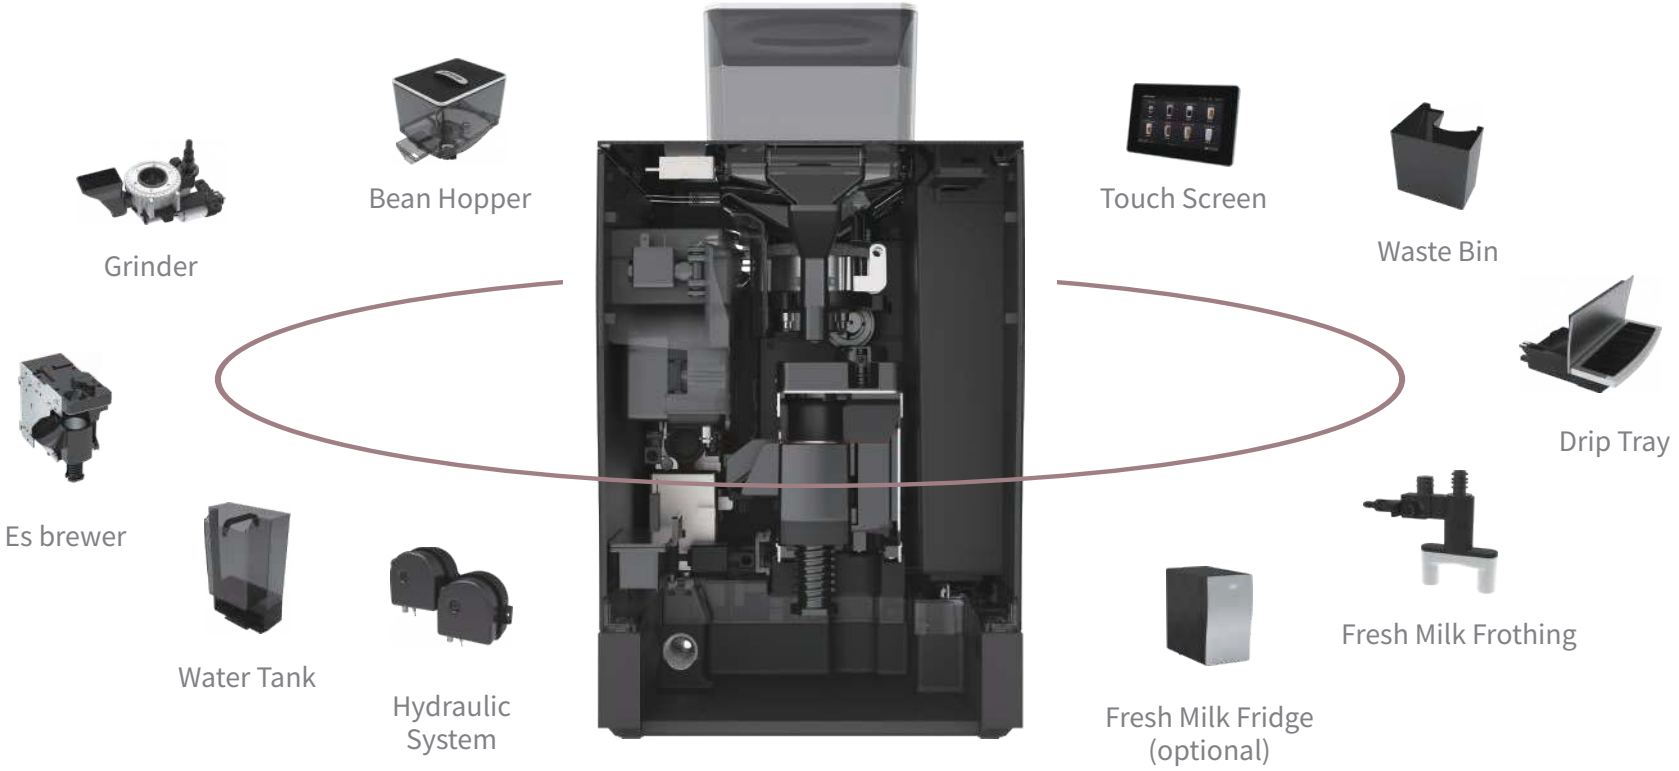

Deep cleaning

Brewing components' pipelines can be manually disassembled for thorough water washing, minimizing hidden residues.

Modular Design

During the design phase of the JL30 series, full consideration was given to modular combination design, allowing customers to choose a suitable coffee machine configuration based on different application scenarios and beverage demands.

Jetinno SGH64 Grinding System

- 64mm special steel flat grinding burrs.
- Dissipate heat quickly, preventing coffee grounds from being reheated.
- 9-level adjustable grinding coarseness.
- 75,000 grinding cycles lifespan, 500kg coffee bean burr lifespan.

Jetinno High-Pressure Espresso Brewing System

- Pre-infusion extraction technology.
- Different locations for coffee bean loading and brewing.
- Optional 14g/20g brewing chamber capacity.
- Easy one-step disassembly for brewing.

Hot Milk Frothing System

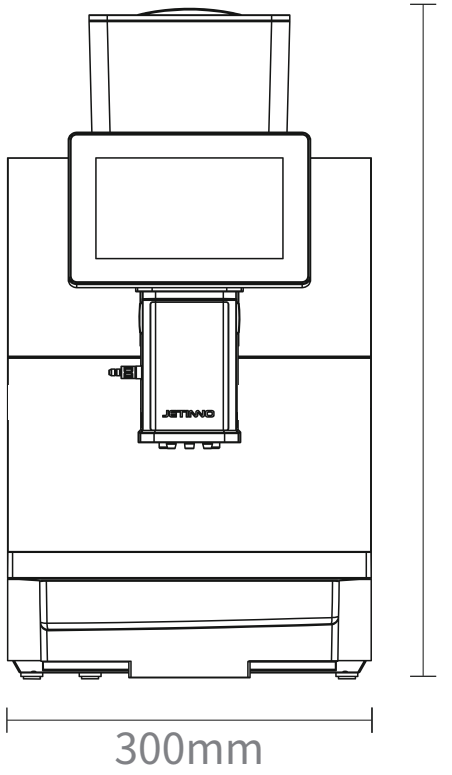

- Produces hot milk/foamed milk with a temperature of 60°C or above.
- Independently adjusts the froth volume in the beverage.
- Timed automatic cleaning of the milk path.
- Snap-on design allows for quick disassembly.

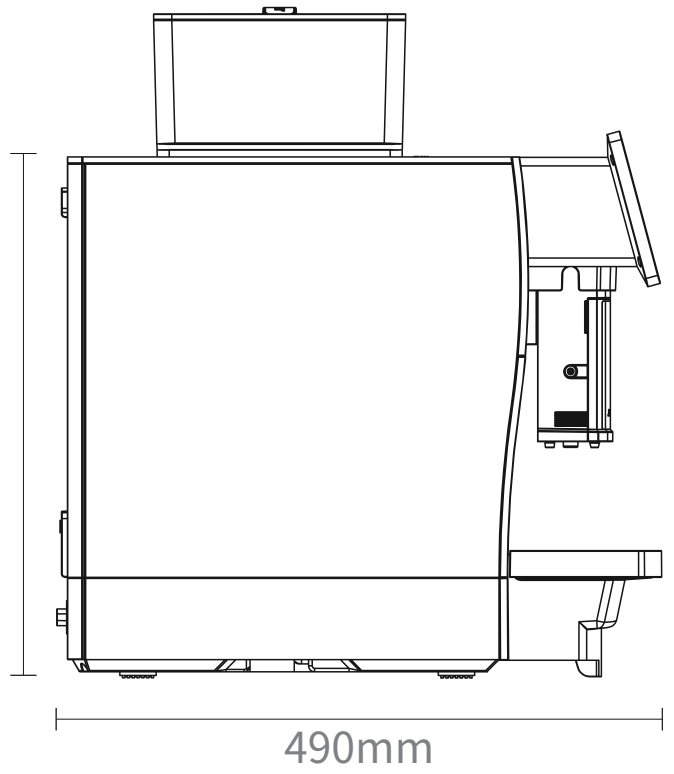

Hydraulic System

- Dual instant boilers provide 92°C hot water.
- High-pressure piston pump delivers 9Bar extraction pressure.
- Solenoid valves with a long lifespan.
- Independent modular design.
