APPIA LIFE A GUARANTEE FOR SUCCESS

Appia Life is created based on the success of the Appia.

With its high productivity and high performance, this machine is appreciated by thousands of baristas worldwide.

The continuous studying and researching of the Nuova Simonelli team regarding the Appia Life, made possible the creation of a superb machine; even more comfortable for the barista with even simpler maintenance compared to the previous Appia.

Appia Life has been studied for those who want a simple and trustworthy machine. It is the perfect coffee maker for large companies, coffee shop chains or wherever there is a need to prepare an abundance of great coffee.

Simple and innovative. Appia life stands out, not only for its proven reliability but also for the modern style that makes it unique.

On top of this, now Appia Life was designed to save energy, sustain the environment, and be cost-effective.

Appia Life is now also available with a display in the XT version.

High productivity and more sustainable

simple and... innovative

ENERGY SAVING & COST-EFFECTIVE

INSULATION
The boiler of the Appia Life has DRYTEX THERMICAL technology insulation that

reduces **13%***

of energy consumption compared to the Appia II, and it comes as standard series in the whole range of the machine.

CONSUMPTION
Appia Life guarantees a

20% reduction

in energy consumption and environmental impact. The Life Cycle Assessment** analysis confirms that the Appia Life with its new thermal system, new materials, and general optimization of the mechanical components, has **20%** less environmental impact compared to the Appia II.

life.

* value calculated on Appia Life vs Appia II benchmark

** Life Cycle Assessment is a structured and standardized method used worldwide that quantifies the potential impacts on the environment and human health associated with the use of a product, starting with respecting resources and emissions.

life.

APPIA LIFE: PRODUCTIVITY AND CONSISTENCY

HIGH PRODUCTIVITY
Appia Life is able to prepare up to **250** cappuccinos* on daily basis.

MACHINE CONSISTENCY. BECAUSE EVERY CUP COUNTS.
The machine consistency is based on the following technology:

- **SIS – SOFT INFUSION SYSTEM**
  SIS guarantees a soft infusion allowing a consistent result, it compensates for any incorrect coffee tamping and it avoids the channelling effect.

- **EASYCREAM**
  It allows the quick and automatic making of a dense and velvety milk cream. The nozzles thermal insulation allows this component to be safe, reliable and hygienic.

APPIA life.

XT SERIES

EVEN MORE ADVANCED

The new XT version completes the Appia Life machines family, available in 2 and 3 groups in the volumetric version (5 dispensing keys per group).

The performance remains unchanged compared to the 2 and 3 group Appia Life models, but the Appia Life XT has evolved in the form and in the innovative details that improve the final results.

TFT DISPLAY FEATURES

DOSE PROGRAM
It allows programming the dose for each group.

CLEANING
It allows scheduling the group cleaning and set up the alarm.

COUNTERS
It's possible to see how many times each group dispensed coffee.

DISPLAY AND BUTTONS
It's possible to adjust the brightness of the buttons and display.

SETTINGS
It allows the setting of standard functions and it provides information about the software and connection.

GREAT COMFORT MEANS HAPPY BARISTAS

Happy barista means greater productivity.

Appia Life makes productivity even more efficient thanks to it's ergonomic style, improving the service speed and assisting the barista in day-to-day performances.

REVERSE MIRROR
This feature allows the barista to check the coffee dripping and cleanliness of the filter holder from a much more comfortable position.

ALIGNED CUP WARMER
The cup warmer is aligned with the top of the machine. Thanks to this feature, the user has an easier reach and speeds up the working process.

PUSH BUTTON PANEL
The push-button panel has been re-created to be user friendly and more resistant in the long run.

EASY MAINTENANCE
Appia Life has been designed to be more efficient when it come to maintenance. The complete new style of the machine facilitates the user in any operations routine. Its new adjustable nozzle attachment, new side opening system and redesigned groups, are all features that allow it to be majorly efficient.

NO ONE HAS EVER GIVEN YOU SO MUCH FOR THE SAME VALUE AS APPIA LIFE

Appia Life is available with 2 groups as “Semi-automatic” and “Volumetric”, which has useful functions including the practical “automatic wash”.

SEMI-AUTOMATIC

VOLUMETRIC

redesigned and enhanced

NEW DESIGN

Even more compact, the Appia Life empowers a stronger connection between machine and barista. The new stylish design allows the coffee machine to be suitable for any arrangement.

With the edition of two chrome bands wraped around the rear panel, the machine radiates a serene fascination.

RAISED GROUP

FUNCTIONAL ASPECTS

Appia Life has all the great features of the previous Appia, only better; push & pull levers, soft-touch portafilter, stainless steel drip tray, adjustable steel nozzles, the wide work surface, the water level indicator, the dual scale pressure gauge and the raised or standard height groups are all re-confirmed features of this incredible machine.

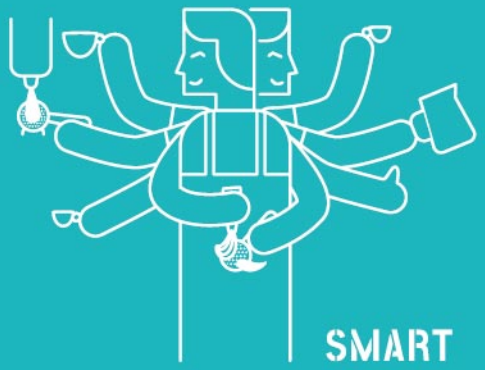

The remote control function is one of the newest features of the Appia Life. It helps the user control and manage the machine from a remote device.
