LIEBHERR

Quality, Design and Innovation

KBbs 4260

1 Know-how that matters!

Liebherr-Hausgeräte has specialised in developing and manufacturing first class refrigerators and freezers of premium quality and cutting edge design for over 60 years. Innovative ideas are constantly added to the products for enhancing freshness, improving ease-of-use and saving even more energy to raise customer product value.

2 Premium product quality

To ensure the renowned Liebherr quality, only first class components are used. For example, accurate electronic control systems are used in conjunction with optimised refrigeration components. During the manufacturing process the appliances undergo comprehensive testing and inspection to ensure perfect workmanship and flawless functionality. This means Liebherr appliances have a long service life.

3 Innovative ideas

Liebherr appliances boast a compelling array of innovative ideas. Take, for example, the freestanding Premium appliances with the electronic control system and user-friendly Touch feature, or the PremiumPlus models with the innovative LED lighting, convenient IceMaker with TwistTray, or GlassLine shelves for versatile use.

4 Classical design

The combination of classical, timeless design with high quality materials like glass and stainless steel makes Liebherr appliances the focal point in any kitchen.

5 Environmentally friendly

For Liebherr, being actively green starts at the very beginning of the design process. In keeping with this ethos, Liebherr uses high quality components for its appliances to provide long and safe operation and top energy efficiency. All plastics are marked for recycling. The manufacturing processes are also geared to efficient use of resources. To give one example: the heat naturally generated during manufacture of the appliances is recycled as heating energy. Further, all Liebherr production sites are certified to the international quality standard ISO 9001, and to the international environmental management standard ISO 14001.

6 Energy Saving Trust Recommended

By deploying state-of-the-art, precision electronics combined with finely tuned, highly efficient refrigeration systems, Liebherr offers a wide range of energy saving appliances. All the product groups feature models securing great savings in the top energy efficiency classes. Only the most energy-efficient products carry the **Energy Saving Trust Recommended** label, making it quick and easy to find products that will cost you less to run, contribute to savings on your energy bill and help you protect the environment.

7 BioFresh – proven to be healthier

BioFresh guarantees the perfect climate for extra long freshness. A temperature slightly above 0°C and ideal air humidity maintain the delicate aroma and appetising appearance of fruit and vegetables, meat, fish and milk products significantly longer than in a standard refrigerator.

8 NoFrost – professional quality freezing performance

The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

9 Perfect climate for fine wines

Liebherr's wine storage cabinets and multi-temperature wine cabinets are designed specifically to store wine in its optimum environment. These appliances feature state-of-the-art electronic control systems, special vibration free compressors and a host of features such as tinted glazed doors, FreshAir activated charcoal filters or stable, hand crafted wooden shelves on telescopic rails.

10 Awards given to the range

The outstanding product and design quality of Liebherr appliances is confirmed time and time again by independent institutions. The Plus X Awards recognized Liebherr as 'Most Innovative Brand 2013'. Several models received the GDC's 'Interior Innovation Award' and the 'Kitchen Innovation Award'. In addition, Liebherr appliances are regular winners of 'reddot design award' for the large food storage centres CBNes 6256 and SBSes 7165.

CBPesf 4043

Innovative ideas combined with outstanding design and superior quality

Super savings in energy consumption

Many Liebherr fridges and freezers come in the best energy efficiency classes A++ and A+++ and are therefore the top energy savers in any home.

Using state-of-the-art electronic control units in conjunction with optimised refrigerating systems has achieved a further significant reduction in energy consumption in comparison with previous economical models.

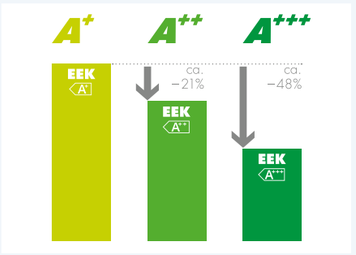

Only the most energy-efficient products carry the **Energy Saving Trust Recommended** label, making it quick and easy to find products that will cost you less to run, contribute to savings on your energy bill and help you protect the environment.

energy saving recommended

Certification mark

Active Green

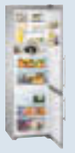

20% more energy efficient than the level required for A+++*

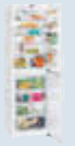

Ultra-energy-efficient highlights
The fridge-freezer CBPesf 4043, which already fall into best energy efficiency class, are now about 20% more energy efficient than the base level required for class A+++. Liebherr is setting new standards again.

* Energy efficiency index 20% below (EEI 17.6) the level required (EEI 22) for energy efficiency class A+++ according to Delegated Regulation (EU) 1060/2010

The **BioFresh** drawers extend on smooth running **telescopic rails**. The drawers are integrated almost flush into the fridge compartment and can be pulled out and removed with a door opening angle of 90°.

In the **PremiumPlus appliances** the BioFresh compartments have **LED lighting**, ensuring an ideal, clear view of the food stored inside. The LED lighting is elegantly integrated into the side wall for a flush finish.

The **humidity control plates** allow the humidity to be set individually in both compartments, enabling each one to be used as a HydroSafe or as a DrySafe.

DrySafe – for fish, meat and dairy products

HydroSafe – for fruit and vegetables, adjustable humidity level

BioFresh – Maximising the life of fresh produce

Creative cooking with family and friends is a new trend in modern cuisine. And nowadays enjoying healthy meals is simple to achieve as fresh food provides all the vitamins, mineral nutrients and trace elements our bodies need everyday. It is important not only to buy really fresh food, but also to ensure it's perfectly stored at home. Since not all types of food need the same temperature and humidity conditions, Liebherr has come up with the additional temperature zone – BioFresh – where many types of food can be kept fresh significantly longer than in a traditional refrigerator compartment.

In the **BioFresh compartments** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C.
Each drawer can be used individually and provides ideal humidity – **HydroSafes** with high humidity or **DrySafes** with low humidity – for a versatile storage solution.

BioFresh fridge-freezers

The **BlackSteel** is visually a highly attractive and unusual black stainless steel finish which catches every eye. Combined with the high quality SmartSteel finish, this new material lends a hi-tech appeal whilst retaining a timeless elegance. The transverse polished finish creates an exclusive, visually appealing look, making the BlackSteel models a true highlight of every kitchen.

With **BioFresh** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – **HydroSafes** with high humidity or **DrySafes** with low humidity.

The elegant **MagicEye control system** with the innovative, user-friendly Touch-electronic feature ensures that the temperature in the refrigerator compartment and freezer compartment is kept to exactly the degree chosen. All the functions can be simply and conveniently operated at the touch of a finger.

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

The distinctive **Premium GlassLine equipment** puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass, as are the racks with stainless steel trims in the door interior. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

BioFresh-Plus fridge-freezer

At a temperature of just above 0°C, the humidity of both drawers can be set for DrySafe or HydroSafe use. The low humidity for the **DrySafe** is ideal for storing meat, fish and dairy products. Fruit and vegetables are best kept in the **HydroSafe** with a high level of humidity.

The **BioFresh-Plus** technology provides yet more flexibility for tailored storage. The separate BioFresh-Plus electronic control system allows the temperature in the top drawer to be lowered to **-2°C** for storing fish. Together with the DrySafe setting, fish is kept fresh even longer.

Exotic fruits find ideal storage conditions in the top adjustable safe at **+6°C** and a high level of humidity.

In the PremiumPlus appliances the BioFresh compartments have **LED lighting**, ensuring an ideal, clear view of the food stored inside. The LED lighting is elegantly integrated into the side wall for a flush finish.

The **HomeDialog system** allows you to control a NoFrost premium freezer from the LCD display pane in your fridge-freezer. Interconnection is possible with the Power-Line Module, available as a chargable optional extra (HomeDialog-ready). The only requirement is that both appliances are connected by the same electrical ring main.

The **electronic LCD display** is an innovative design feature. Clear menu navigation and a Touch-electronic control system provides yet more information for tailored storage conditions. The **Touch-electronic navigation** ensures easy selection and use of the numerous control functions.

The **SoftSystem** feature provides added safety and convenience. Integrated in the door, the SoftSystem cushions movement when the door is closed. This SoftSystem ensures that the door closes gently even when fully loaded. The door closes automatically from an opening angle of approximately 45 °.

Electronic control system
- LCD display in door with LCD Touch-electronic display
- DuoCooling: Separate temperature regulation for refrigerator compartment and freezer compartment
- Automatic SuperCool function
- Automatic SuperFrost function, quantity-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- HomeDialog system
- Control lamps for mains, alarm, SuperCool, SuperFrost, FrostControl, child lock and HolidayMode

Fridge compartment
- Automatic defrosting
- Forced air cooling with fan
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option
- Premium GlassLine door racks with bottle and can holders
- Smooth, easy-to-clean compartment liner with elegant holding columns for rearrangement of the glass shelves
- LED light columns
- Integrated bottle shelf
- Rearrangeable, removable Vario boxes
- Egg tray

BioFresh compartment
- Automatic defrosting, forced air cooling
- BioFresh-Plus, adjustable temperature range
- LED interior light
- Pull-out BioFresh safes mounted on telescopic rails with flexible humidity control for use as DrySafes or HydroSafes for longer freshness of fruit, vegetables, meat and dairy products

Freezer compartment
- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves
- IceMaker with fixed water connection 3/4"

Features
- SwingLine design
- Stainless steel slimline door handles with integrated opening mechanism
- SoftSystem: cushioned door closure
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

- SwingLine design (except CBNPgb 3956)
- Slimline door handles with integrated opening mechanism (except CBNPgb 3956)
- Recessed grip with CBNPgb 3956
- SoftSystem: cushioned door closure with CBNPgb 3956
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

Featuring a glass front in elegant black, the **GlassEdition** model CBNPgb 3956 is the highlight of any kitchen. The handle is incorporated at the side of the appliance for full visual impact of the glass front and for complementing the design scheme of handle-free ktichens. The glass is scratch-resisitant.

DuoCooling uses two separate cooling circuits to independently control fridge and freezer compartment temperatures. With DuoCooling there is no air exchange between fridge and freezer compartments so odour transfer is prevented and food is stored in optimum conditions.

Liebherr's **BlackSteel** combines modern design with timeless elegance. The premium SmartSteel finish not only signifi cantly reduces the visibility of fingerprints and is extremely easy to clean, but also offers a new level of scratch resistance.

1 Model classification **10:** BioFresh fridge-freezer **10:** BioFresh refrigerators

2 To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

3 Commission Delegated Regulation (EU) No 1060/2010

4 ✱✱✱✱ freezer compartment with -18 °C or colder

5 Climate Ratings: **SN** +10 °C to +32 °C **N** +16 °C to +32 °C **ST** +16 °C to +38 °C **T** +16 °C to +43 °C

6 **IceMaker** – automatic ice-cube maker (can be switched off) with fixed water connection 3/4" and solenoid valve (needs to be plumped in)

CNPesf 4003

NoFrost fridge-freezers

The **MagicEye control** keeps the temperature at exactly the level you select. It is simple and convenient to use. The **automatic SuperFrost** function quickly reduces the temperature to freeze your food while preserving the vitamins.

The distinctive **GlassLine equipment** puts the finishing touches to the high quality interior. The shelves are made of safety glass. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Nearly all the stainless steel doors come with a **SmartSteel** surface. SmartSteel significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

NoFrost fridge-freezers

Electronic control system
- MagicEye with LED temperature display
- DuoCooling: Separate temperature regulation for refrigerator and freezer compartment
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm
- Control lamps for mains, alarm, SuperFrost

Fridge compartment
- Automatic defrosting
- Forced air cooling with fan
- GlassLine storage shelves – 1 sectioned, with slide under half shelf option (except CNP(esf) 4003)
- Smooth, easy-to-clean compartment liner with columns for rearrangement of the glass shelves
- Comfort GlassLine door racks with bottle and can holders
- LED ceiling light
- Fruit and vegetables bins, with pull-out roller system with CN(esf) 5113
- Fruit and vegetables bins with CNP(esf) 4003
- Bottle shelf
- Egg tray

Freezer compartment
- NoFrost: Automatic defrosting
- Forced air cooling
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves
- Ice cube tray

Features
- SwingLine design
- Slimline door handles with integrated opening mechanism
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The **transparent vegetable bins** running on rollers are designed to provide a clear view of the stored food – sliding out effortlessly on the roller system.

The **bottle shelf** is a practical and elegant solution for storing drinks. As many as five bottles can be chilled and stored neatly.

SmartFrost fridge-freezers

The **MagicEye control** keeps the temperature at exactly the level you select. It is simple and convenient to use. The **automatic SuperFrost** function quickly reduces the temperature to freeze your food while preserving the vitamins.

The **bottle shelf** is a practical and elegant solution for storing drinks. As many as five bottles can be chilled and stored neatly.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Nearly all the stainless steel doors come with a **SmartSteel** surface. SmartSteel significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

With the **SmartFrost technology,** ice build-up is greatly reduced. This makes defrosting rarely necessary. The interior walls of the freezer compartment are very smooth and easy-to-clean. Freezer drawers and glass shelves made of safety glass can be removed easily.

SmartFrost fridge-freezers

Electronic control system
- MagicEye with LED temperature display
- DuoCooling: Separate temperature regulation for refrigerator and freezer compartment
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Control lamps for mains, alarm, SuperFrost

Fridge compartment

- Bottle shelf
- Egg tray

Freezer compartment
- SmartFrost: Easy defrosting with smooth and easy-to-clean interior
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves
- Ice cube tray

Features
- SwingLine design
- Slimline door handles with integrated opening mechanism
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

The **LED ceiling light** creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Liebherr's **BlackSteel** combines modern design with timeless elegance. The premium SmartSteel finish not only signifi cantly reduces the visibility of fingerprints and is extremely easy to clean, but also offers a new level of scratch resistance.

Compared to other static freezers, Liebherr's **SmartFrost technology** freezes food faster, and reduces ice build-up, making defrosting simpler and quicker. It also provides a more flexible storage area with greater capacity and improved energy consumption for lower running costs.

Top mount fridge-freezers

NoFrost
The NoFrost system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

Automatic SuperFrost
The SuperFrost function makes freezing simple by quickly reducing the temperature in the freezer compartment ensuring fast freezing of your fresh produce, preserving vitamin and mineral content in the process.

LED light
LED interior light provides optimal illumination of the refrigerator compartment.

GlassLine interior
The distinctive Premium GlassLine equipment puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass, as are the racks with stainless steel trims in the door interior. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Bottle shelf
The bottle shelf is the practical and elegant answer for storing drinks. As many as five bottles can be chilled and stored neatly.

Vegetable compartment
The practical and easy-to-clean vegetable compartment provides plenty of space for storing fruit and vegetables.

Upright fridges

The elegant and precise **MagicEye control** with its visual temperature display keeps the temperature at exactly the level you select. The clear arrangement of the function buttons makes for easy and convenient use. **The SuperCool** function lowers the refrigerator temperature down to as far as +2°C – ideal for rapidly cooling freshly stored food.

The high performance **forced air system** ensures rapid cooling of food and an even temperature throughout the entire internal space. Door contact switches turn off the fan when the door is opened, which saves valuable energy and prevents warmer external air from entering the refrigerator.

Models in the Comfort range now feature **Comfort GlassLine**: high quality glass shelving for the door interior. Comfort GlassLine comprises a robust satin-finished safety glass shelf, railings and an elegant plastic surround. The can/bottle racks have an adjustable holder for secure storage.

The **bottle shelf** is a practical and elegant solution for storing drinks. As many as five bottles can be chilled and stored neatly.

The distinctive **GlassLine equipment** in Comfort models puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Liebherr have redefined energy saving with the innovative **A+** and **A++** fridges. Use of the latest electronics combined with a highly efficient refrigerating system enables the energy consumption to be significantly reduced. This super energy-saving solution actively contributes to environmental conservation.

Upright fridges

Electronic control system
- MagicEye control with LED temperature display with KP(esf) 4220 and KP(esf) 3620

N +16 °C to +32 °C **T** +16 °C to +43 °C

Side-by-Side fridge-freezers: Large capacity food storage centres

The SBSes 7165 Side-by-Side fridge-freezer with **six different climate zones boasts** an array of innovative solutions. The multi-temperature wine cabinet has two zones for storing wine at the exact temperature required, ranging from +5 ºC and +20 ºC.

The **BioFresh-Plus technology** provides greater flexibility and control for ideal food storage conditions. With its independent electronic control system the temperature in the top compartment can be adjusted from -2 °C (fish), to + 6 °C (exotic fruits).

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The **IceMaker** provides you with a constant supply of ice cubes for every occasion. Whether you fancy a cold drink or you're having a big party, the IceMaker automatically keeps your supplies topped up.

The **SoftSystem** ensures that the door closes gently even when fully loaded. The door automatically closes from an opening angle of approximately 45 º.

The **BioFresh** drawers extend on smooth running **telescopic rails**. The drawers are integrated almost flush into the fridge compartment and can be pulled out and removed with a door opening angle of 90°.

An optical highlight in BlackSteel: SBSbs 7263

In the **BioFresh compartments** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C. Each drawer can be used individually and provides ideal humidity – HydroSafes with high humidity or DrySafes with low humidity – for a versatile storage solution.

The **NoFrost** system from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The **IceMaker** provides you with perfect ice cubes for every occasion. Whether for a cool drink or a big party – there will always be enough ice cubes. The IceMaker, which you can switch off at any time, automatically keeps your supplies topped up.

The distinctive **Premium GlassLine** equipment puts the finishing touches to the overall impression of high quality conveyed by the interior. The shelves are made of safety glass, as are the racks with stainless steel trims in the door interior. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Attractively designed, the robust removable **transparent drawers** with an easy-to-clean interior provide ample storage and the best possible storage solution for frozen food. Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

BlackSteel is optically a highly attractive and unusual black stainless steel finish which catches every eye. Paired with the high quality SmartSteel finish, this new material lends the Side-by-Side fridge-freezer a hi-tech appeal whilst retaining a timeless elegance. The transverse polished finish creates an exclusive, visually appealing look, making the BlackSteel models a true highlight of every kitchen. The practical **aluminium door handle**, with integrated opening mechanism, allows the door of the appliance to be opened conveniently with a minimum of effort.

1 To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

The innovative food storage centre CBNes 6256

The CBNes 6256 **NoFrost** food centre from Liebherr is a highly energy efficient A++ rated appliance. The two pull-out freezer drawers are mounted on high-quality telescopic rails and can be effortlessly extended to provide a perfect view of ideal storage conditions.

The elegant **MagicEye control system** with the innovative, user-friendly Touch-electronic feature ensures that the temperature in the refrigerator compartment and freezer compartment is kept to exactly the degree chosen. All the functions can be simply and conveniently operated at the touch of a finger.

The automatic **IceMaker** from Liebherr provides perfect ice cubes for every occasion. Whether you fancy a quick drink or you're having a big party, the extra-large drawer holds an ample supply of ice cubes. An integrated water filter ensures perfect water quality at all times. The electronic display indicates when the water filter needs replacing.

The PremiumPlus interior features **LED light columns** integrated on either side of the compartment liner, ensuring that the interior is evenly bathed in light to create a unique and dramatic effect within the appliance. At the same time the light columns provide freedom for rearranging the glass shelves to suit your storage needs. The integrated LED ceiling light guarantees a perfect illumination of the interior.

The elegant, high quality **GlassLine interior** is adaptable to suit individual requirements. The extra-strong, satin-finish shelves and door racks with solid aluminium trims are height adjustable. The door interior accommodates tall bottles and wide containers.

Both **BioFresh-Safes** are mounted on **telescopic rails** which extend effortlessly providing a full view of produce, which is easily accessible. The lateral LED light spots ensure perfect illumination of the drawers. The versatile glass/bottle shelf can be used depending on your personal preference. The glass on top gives you shelf space, moving the glass underneath gives you bottle space.

This appliance must be bracketed to the wall / floor

Upright freezers

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The elegant, precise **MagicEye control** with the innovative Touch control concept ensures that the selected temperatures are maintained to the exact degree. All the functions can be simply and conveniently operated at the touch of a finger on the control panel.

The GNP upright freezers have an **LED light strip** integrated in the electronic panel. This ensures optimum illumination of the pull-out drawers with a transparent front – for an even better view of the stored food.

Attractively designed, the robust **removable transparent drawers** with an easy-to-clean interior provide ample storage and the best possible storage solution for frozen food. Freezer drawers and glass shelves can be removed.

The **HomeDialog system** allows you to control a NoFrost premium freezer from the LCD display pane in your fridge-freezer. Interconnection is possible with the Power-Line Module, available as a chargable optional extra (HomeDialog-ready). The only requirement is that both appliances are connected by the same electrical ring main.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

Exterior dimensions in cm (h/w/d)	184.1/60/63 [1]	164.4/60/63 [1]	144.7/60/63 [1]	125/60/63 [1]	85.1/60.2/62.8 [1]
Adjustable cooling circuits	1	1	1	1	1
Door/Side walls	white/white	white/white	white/white	white/white	white/white

1 To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

SmartFrost freezers

Electronic control system
- MagicEye control with LCD and visual temperature display
- Automatic SuperFrost function, time-controlled
- Visual and audible warning signal in case of malfunction
- Audible door alarm with G 3513
- Control lamp for mains, alarm, SuperFrost and child lock

Freezer compartment
- SmartFrost: Easy defrosting with smooth and easy-to-clean interior
- FrostSafe system with completely enclosed, transparent drawers
- VarioSpace: removable drawers and intervening glass shelves
- Interior light with G 3513
- Herb and berry tray with G 3513

Features
- SwingLine design
- Slimline door handle with integrated opening mechanism
- Suitable for installation in a row of kitchen units through front ventilation
- Height-adjustable feet at the front, transport castors and transport handles at the back
- Reversible doors

The elegant and precise **MagicEye control** with its visual temperature display lets you keep the temperature at exactly the level you select. The clear arrangement of the function buttons makes for easy and convenient use. The automatic **SuperFrost function** quickly reduces the temperature to freeze your food while preserving the vitamins.

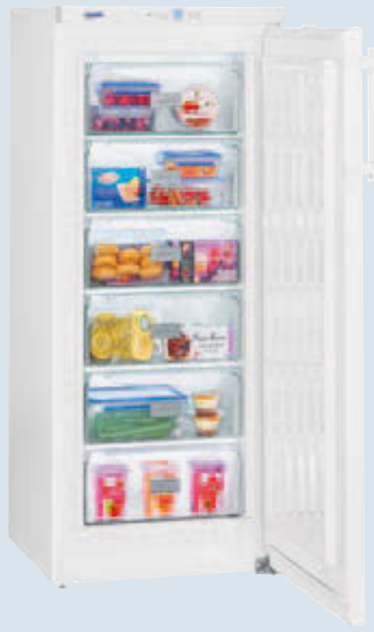

With the **SmartFrost technology**, ice build-up is greatly reduced. This makes defrosting rarely necessary. The interior walls of the freezer compartment are very smooth and easy-to-clean. Freezer drawers and glass shelves made of safety glass can be removed easily.

Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

Chest freezers

Frosting over of the freezer and frozen food is reduced, which limits the number of times you need to defrost the freezer. **StopFrost** prevents a vacuum from building up, ensuring the lid opens easily.

Innovative chest freezers from Liebherr in a new energysaving dimension: In the best **A+++ energy efficiency class**, the appliances are approximately 48% more energy efficient than the top limit of class A+.

Jointless foam insulation. The heat-exchange condenser is embedded in foam along the exterior wall, minimising vibration and promoting quieter operation. No condensation forms on the outside and the smooth outside walls are easy-to-clean.

All **operating and control functions** are clearly and practically integrated into the ergonomically designed chest freezer handle. The temperature can be set by using the easy-to-operate control knob. The **automated SuperFrost system** freezes food quickly to optimally preserve vitamins. As soon as the food is completely frozen, the automated SuperFrost function switches back to normal mode.

The bright **interior light** allows a clear view of all your stored products even in low ambient lighting conditions.

Chest freezers in the premium range benefit from the **SoftSystem closing mechanism**, a convenient and highly desirable feature for everyday use. Integrated into the hinge on the freezer lid, SoftSystem gently and reliably cushions movement when the appliance is closed – even if done so forcibly or abruptly.

Vinidor range

The Vinidor range offers ultimate flexibility and combines the advantages of both wine storage cabinets and multi-temperature wine cabinets in a single appliance. Appliances in the range come with either two or three temperature zones, which can be set independently to the required temperature between +5°C and +20°C. Accordingly, an appliance with three temperature zones can simultaneously store red wine, white wine, and champagne all at their optimum serving temperature. Vinidor appliances also offer the perfect climate for long-term wine storage. The varying sizes of the temperature zones, together with the fully adjustable temperature controls, make these appliances suitable for just about any collection of wines.

The electronic LCD display is an innovative design feature. Clear menu navigation and a **Touch-electronic control system** provides yet more information for tailored storage conditions. The digital temperature display can be read from the outside of appliances with glass doors. The Touch-electronic navigation ensures easy selection and use of the numerous control functions.

The **LED lighting in the wine cooling compartments can be dimmed** to give a pleasing ambient light inside the appliance. All Vinidor appliances are equipped with this innovative, no-heat LED lighting concept.

The **tinted safety glass** in the Liebherr wine cabinets guarantees the essential UV protection for your fine wines. The practical aluminium door handle, with integrated opening mechanism, allows the door of the appliance to be opened conveniently with a minimum of effort.

The Vinidor appliances are equipped with solid **wooden shelves mounted on telescopic rails.** The handcrafted shelves made from untreated wood are ideal for storing Bordeaux bottles safely, providing a clear view and easy access. Storing the bottles in opposite directions permits full use of the capacity. The clip-on labelling system provides a quick and clear overview of your wine store.

The practical **presentation shelf** of the Vinidor models fulfills both bottle storage and bottle presentation functions. The bottles can be stored horizontally at the rear.

The **SoftSystem** feature provides added safety and convenience. Integrated on the door, the SoftSystem cushions movement when the door is closed. This SoftSystem ensures that the door closes gently even when fully loaded inside. The door automatically closes from an angle of approximately 45°.

GrandCru Vinothek

Wine storage cabinets GrandCru and Vinothek

Wine storage cabinets can be set to the exact temperature required within the range of +5 °C to +20 °C. This ensures that the selected temperature is maintained constantly and uniformly throughout the interior. Our wine storage cabinets are ideal for storing wines for long periods of time to allow them to mature to perfection. Depending on what temperature the appliances are set to, they can also be used for keeping white wine or red wine at exactly the right temperature for serving.

The precision **electronic control system** is clearly arranged in the insulation plate. The digital temperature display can be read from the outside of appliances with glass doors. The door and temperature alarm alerts the user to any irregularities, e.g. a door that has been left open. The child lock prevents any inadvertent changes to the control system.

The **bottle shelves, made of untreated wood** are variably height-adjustable to provide an optimum overview and a clear storage layout. The bottles can be stored in opposite directions to make full use of the capacity. The wooden shelves are designed to safely hold Bordeaux bottles.

To find out more about Wine.
wine.liebherr.com

Vinothek

Multi-temperature wine cabinets Vinothek

These appliances incorporate a climate control system which graduates the temperature. In the upper zone, for example, red wine can be kept at +18 °C while the lower zone, set at +5 °C, will be particularly suitable for sparkling wine or champagne.

The wine cabinets are equipped with an accurate **electronic control system** with digital temperature display. These appliances incorporate a special climate control system that can layer the temperatures. In the upper zone, for example, red wine can be kept at +16 °C to +18 °C while the lower zone is set at +5 °C to +7 °C.

Ideal humidity via Lava stone. The humidity in the Vinothek models can be increased by using Lava stone.

ZKes 453

Humidor

The humidor can also be **wall-mounted** as an attractive eye-catcher and for convenient access.

The precision **electronic control system** allows the temperature to be set within a range of +16°C to +20°C.The humidity can also be set between 68% and 75%. The temperature alarm alerts the user to any irregularities within the interior.

The **presentation boxes** are ideal for storing loose cigars and can easily be removed for presentation purposes.

Liebherr's humidor has **LED lighting**, with dimmer function, incorporated in the glass door. As the LEDs emit virtually no heat, the cigars can be showcased bathed in light for lengthy periods, without compromising their quality.

Accessories

When ordering accessories, please ensure that you quote not only the order numbers shown below, but also the full appliance name/service number.

01 Bottle shelf

The bottle shelf provides elegant and practical storage for drinks.

60 cm wide: **CP 40; CUN; CNP**	7112 446
55 cm wide: **K 2330, K(sl) 2814; CTP(sl) 2121, 2521, 2921; CUN 30; CN 30; CU 23, CU 28, CU 33**	7112 822
60 cm wide: **CUP(sl) 3221**	7112 822
60 cm wide: **KP 2620; KP 3120**	7112 826
60 cm wide: **KB(bs/es) 42; KP(esf) 36, 42**	7112 448

60 cm wide: **CBNP 39** (except CBNPes 3967) **SBS**	7112 448
60 cm wide: **CBP(esf); CBNP(bs/es) 37**	7112 444
60 cm wide: **CP(bs) 34, CP 38; CNP(esf) 40**	7112 442
75 cm wide: **CBNesf 5133**	7112 325
75 cm wide: **CN; CTNes**	7112 341

02 Water filter

Replacement for the integrated water filter. Provides perfect water quality every time in appliances with an IceMaker. The electronic control unit indicates when the water filter needs to be replaced.

CBNes 6256	7440 002

03 Three-metre hose for IceMaker

Reinforced flexible hose (1m long) for appliances with a ¾“ plumbed-in connection.

Plumbed-in appliances	6030 785

04 Vario energy-saving panel

The Vario energy saving plate can shut off unused drawers in NoFrost upright freezers and the full space BioFresh refrigerator. Energy consumption can be reduced by up 50%.

60 cm wide: **GNP; GN; SBS**	9363 210
70 cm wide: **GNP; GN**	9363 372

05 Cold storage accumulator

Freezers, and the freezer compartments of fridge-freezers are protected in the event of a power failure by the cold storage accumulator. This acts as an additional ‘cold reserve’ to prevent the temperature from rising in such circumstances, and thereby protects the frozen produce.

CBP(esf) 4013, 4043	7430 458
Fridge-freezers; Freezers; SBS	7422 838

Chest freezers	7412 053

06 Freezer tray

The innovative freezer tray is perfect for freezing fruits, berries and herbs individually. Not only does this prevent them from sticking together, but it also ensures they retain their shape, and makes them easier to vacuum pack, and to divide into portions later on. When defrosting chest freezers, the freezer tray can be used to collect water. When not being otherwise used, it can be used as a space-saving partition wall.

60 cm wide: **GNP; CN; CNP; CBNP; CUN; SBS**	7426 080
60 cm wide: **CP(bs) 34, CP 38, CP(esf) 40; GP 20, 24, 27**	7426 356
GTP 2356, 2756	7431 419

GTP 3156	7431 393
GT 2132, GT 2632, GT 3632	7431 389
GT 6122	7431 387

07 Additional baskets for chest freezers

Versatility is increased by the use of additional baskets. These make it easier to sort small frozen food items, and facilitate easier access to stored produce.

GT 2132, GT 2632	7112 725
GT 3632	7113 557
GT 6122	7112 727

GTP 2356	7112 317
GTP 2756	7112 251
GTP 3156	7113 555

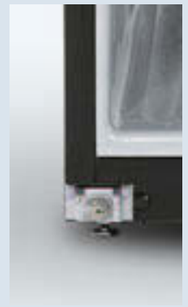

08 Lock

The lock prevents unwanted access. Simply assemble on the housing with chest freezers and Vinothek wine cabinets. If two wine cabinets are set up Side-by-Side, the operation of the sideways lock is limited. In this case an additional lock can be fitted below.

Chest freezers	9590 835

Vinothek	9086 415

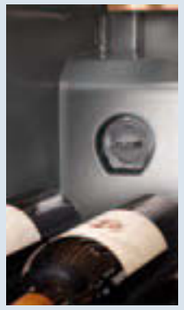

09 FreshAir active carbon filter

During prolonged storage, wines and cigars are sensitive to any odours that contaminate the storage environment. Liebherr appliances benefit from optimum air quality and freshness thanks to the easy-to-replace FreshAir active carbon filter which is integrated into the wine compartment of the SBSes 7165 Side-by-Side fridge-freezer, into all wine cabinets, and into the humidor. Annual replacement is recommended.

WKes 653; ZKes 453	7440 699
WTes 1672	7434 557

Others	7433 243

10 Lava stone

The humidity in the Vinothek multi-temperature wine cabinets can be increased as required using lava stones.

WTb 4212; WTr 4211	9590 785

11 Presentation shelf

The shelf can be used to present exquisite wines, or to safely store already-opened bottles.

Vinidor	7112 043	**GrandCru**	7113 619

12 Wooden shelf

The handcrafted shelf, made from natural wood, is the perfect accessory for safely storing Bordeaux bottles. Positioning the bottles in opposite directions enables full use of the shelf's capacity.

GrandCru	7112 159	**Vinothek**	7112 113

13 Clip-on labelling system

The clip-on labelling system provides a quick and clear overview of your wine store. The labelled cards can be easily inserted into the clips which can be attached as required.

Clip-on labelling for wooden shelves (5 pieces)	9086 709	**Clip-on labelling for grill shelfs WKb/r 18** (2 pieces)	9086 723

14 Galvanised grill shelf

Grill shelf for additional requirements.

WKb 1812	7112 035

15 Underside cover for wall mounting

Covers the underside, enabling compact appliances to be attractively wall mounted without their underside being visible.

WKes 653; ZKes 453	9590 519

16 Stainless steel cleaner

The stainless steel cleaner reliably and gently removes fingerprints, streaks, and stains from stainless steel surfaces. It cleans quickly, without streaking, and also prevents the subsequent accumulation of stubborn dirt.
(Not suitable for use on SmartSteel fronts.)

250 ml es/esf-models (stainless steel without SmartSteel)	8409 022

17 Stainless steel polish

For polishing stainless steel surfaces after they have been cleaned (do not use on SmartSteel).

50 ml es/esf-models (stainless steel without SmartSteel)	8409 028	**250 ml** es/esf-models (stainless steel without SmartSteel)	8409 030

18 HomeDialog master module

HomeDialog can be used to display, manage and control up to six appliances via the display screen on the PremiumPlus combination fridge-freezers. The master appliance requires a HomeDialog master module to communicate with other networked appliances.

CBNPes 3967	9988 178

19 HomeDialog slave module

HomeDialog can be used to display, manage and control up to six appliances via the display screen on the PremiumPlus combination fridge-freezers. The appliance to be networked requires a HomeDialog slave module to communicate with the master appliance.

GNP 3666-4166; KB; CBNP; SBS; WTes 5872, WTes 5972; WTpes 5972	9988 176	**Retrofit kit additionally required**	9590 585
