FACTORY

Fondata nel 1925 come "Alluminio Paderno" e specializzata nella produzione di pentole in alluminio per il settore casalingo, Paderno è attualmente un marchio leader a livello mondiale nella fabbricazione e commercializzazione di pentolame professionale e articoli da cucina per la ristorazione e per l'industria dell'ospitalità.
Nel 1997, in seguito all'acquisizione di Sambonet da parte di Paderno s.r.l. nasce Sambonet Paderno Industrie S.p.A.. Sambonet rappresenta dalla metà dell'ottocento l'eccellenza italiana, a livello internazionale, nella produzione di posateria e vasellame argentato e in acciaio inox dagli stili più classici fino alle sperimentazioni di design.
Paderno e Sambonet approdano nel 2001 a Orfengo (Novara), costituendo il quartier generale del Gruppo in un nuovo e moderno stabilimento firmato dall'Architetto Enrico Frigerio. Nell'azienda si concentrano non solo le attività produttive, il magazzino, un moderno laboratorio, ma anche gli uffici, lo showroom, l'outlet e un'area ricreativa dedicata ai dipendenti.
Nel 2009, con l'acquisto della prestigiosa società tedesca Rosenthal, Sambonet Paderno Industrie S.p.A. arricchisce il proprio portafoglio marchi (Sambonet, Paderno e Arthur Krupp) integrandolo con prestigiosi brand tedeschi del settore della porcellana come Rosenthal, Thomas e Hutschenreuther e, nel 2013, Arzberg. Il Gruppo italiano è ora leader nella produzione di articoli di design di alta qualità per la tavola e la cucina destinato a soddisfare tutte le esigenze dei canali Ho.Re.Ca. e dettaglio.
I prodotti Paderno sono distribuiti attraverso rivenditori specializzati in tutti i comparti della ristorazione Ho.Re.Ca. (come ristoranti, fastfood, alberghi e comunità, ospedali, navi da crociera ed enti militari). Forte di oltre 80 anni di storia con la sua presenza capillare in tutto il mondo, Paderno si propone internazionalmente come un punto di riferimento indispensabile per tutti i professionisti della ristorazione. Gli articoli di produzione sono inoltre affiancati da un'importante gamma di prodotti complementari e affini accuratamente selezionati e realizzati da ditte altamente qualificate.

Founded in 1925 under the name of "Alluminio Paderno" and specialised in the production of aluminium pots and pans for the household, today Paderno is a leading international brand in the manufacture and sale of professional cookware and kitchen items for the restaurant and hospitality industry.
The 1997 saw the set-up of Sambonet Paderno Industrie S.p.A., following the acquisition of Sambonet by Paderno s.r.l.. Since the mid-nineteenth century, Sambonet has been a standard-bearer for Italian excellence throughout the world, producing flatware and holloware in silver-plated and stainless steel, from a classic to a modern and design-driven style.
In 2001, Paderno and Sambonet arrived in Orfengo (Novara), where the headquarters of the Group were set up in a new and modern plant designed by architect Enrico Frigerio. This facility houses not only the factory, the warehouse and a modern laboratory, but also the showroom, the outlet store and a recreation area for staff.
In 2009, the acquisition of the prestigious German company Rosenthal allowed Sambonet Paderno Industrie S.p.A. to enhance its brand portfolio (Sambonet, Paderno and Arthur Krupp) with the addition of leading names in the porcelain sector, including Rosenthal, Thomas and Hutschenreuther, in 2013, Arzberg. The Italian Group now plays a leading role in the production of top-quality items for the tabletop and the kitchen, aimed at covering all the needs required by the market.
Paderno products are distributed through specialised distributors in all segments of the hospitality industry (such as restaurants, fast food outlets, hotels and community facilities, hospitals, cruise ships and military bodies). The company's eighty-year history and the worldwide widespread presence makes Paderno an indispensable international benchmark for all professionals in the catering sector. A remarkable range of complementary articles, carefully selected and crafted by highly qualified companies, completes the Paderno produced collection.

GREEN & HUMAN

Il rispetto dell'ambiente e della persona sono temi rilevanti all'interno della responsabilità d'impresa di Sambonet Paderno Industrie S.p.A. Il Gruppo ha impostato e sviluppa tutt'oggi la propria evoluzione con un impegno di crescita sostenibile garantendo condizioni lavorative che possano soddisfare i bisogni delle persone nei differenti momenti della loro vita aziendale e applicando soluzioni volte a diminuire l'impronta ecologica. In quest'ottica, la gestione dei consumi energetici, elettrici e idrici è orientata a:

- impiegare energia elettrica pulita e rinnovabile;
- utilizzare il metano come unica fonte di combustibile;
- servirsi, per la produzione, di acqua di falda da restituire all'ambiente completamente depurata;
- usare tecnologia di risparmio energetico avanzata.

The respect for the environment and for the people is a relevant issue for Sambonet Paderno Industrie S.p.A. Corporate Responsibility. The commitment to sustainable growth on which the Group was founded has been maintained and permits both to guarantee adequate working conditions in order to satisfy the changing needs of the staff and to apply solutions aimed at reducing the environmental impact. From this perspective, the management of energy, electricity and water consumption focuses on:

- *the use of electrical energy: clean, renewable and in harmony with the environment;*
- *the use of methane as the sole fuel source;*
- *the use of ground water for the manufacturing process, to be fully purified before being released into the environment;*
- *the use of an advanced energy-saving technology.*

SUSTAINABILITY REPORT

Sambonet Paderno Industrie S.p.A. lavora per attuare forme di misurazione che siano in grado di documentare la puntualità, la trasparenza e l'impegno messo in atto per uno sviluppo sostenibile. Da qui la creazione della propria carta dei principi, 10 principi, 10 impegni su cui, attraverso un approccio preventivo e una gestione responsabile, l'Azienda costruisce il proprio futuro industriale.

Bilancio di Sostenibilità dell'Azienda
corporate.sambonet.it/csr.html

UNI EN ISO 14001:2004
La certificazione ambientale garantisce i risultati di una politica ambientale volta al continuo miglioramento delle proprie performance minimizzando ogni impatto negativo delle sue attività verso l'ambiente.

UNI EN ISO 50001:2011 - NEWS 2015
L'adesione volontaria alla norma UNI EN ISO 50001:2011 testimonia l'impegno e la visione dell'azienda verso l'ottimizzazione del consumo responsabile dell'energia, sia in termini economici auspicando a una riduzione dei consumi, e soprattutto verso una crescente attenzione ambientale diminuendo le emissioni di gas serra.

OHSAS 18001:2007
La certificazione ha l'obiettivo di tutelare la sicurezza e la salute dei propri lavoratori e dell'ambiente lavorativo. Sambonet Paderno Industrie S.p.A. è la prima Azienda appartenente al settore metalmeccanico ad ottenere l'attestazione.

Sambonet Paderno Industrie S.p.A. strives to implement forms of measurement to assess the punctuality, the transparency and the efforts made for sustainable development. This has led to the preparation of the corporate charter of principles, 10 principles, 10 commitments, on which the Company builds its industrial future from a perspective based on preventive approach and stewardship.

Corporate Sustainability Report
corporate.sambonet.it/csr.html

The UNI EN ISO 14001:2004 environmental certification is the recognition that the environmental policy results in a continuous improvement of environmental performance by minimising the negative impact of its operations on the environment.

The voluntary compliance with the standard UNI EN ISO 50001:2011 demonstrates the company's commitment and vision towards responsible energy consumption, factoring in both the economic hope of reducing consumption and, above all, the desire to increase environmental awareness about reducing greenhouse gas emissions.

The OHSAS 18001:2007 safety certification has the objective of protecting the safety of the workplace and the health of workers. Sambonet Paderno Industrie S.p.A. is the first Italian company in its sector that has obtained this certification.

PER LA CUCINA SENZA GLUTINE

Coerentemente all'ottica di servizio che contraddistingue il marchio, nasce e prende vita una nuovo progetto Paderno pensato per abbattere gli errori in cucina a salvaguardia del cliente celiaco, sviluppato e concretizzato in seguito alla collaborazione con l'Associazione Italiana Celiachia Lombardia ONLUS. Sambonet Paderno Industrie S.p.A. è stata la prima azienda del settore ad offrire al canale "fuori casa" una linea completa di articoli da destinare alla preparazione di pietanze senza glutine.
Attraverso alcuni elementi distintivi e differenzianti, come manici in PVD oro per pentole e padelle e personalizzazione con un logo specifico per utensili, tutti gli strumenti saranno facilmente identificabili in cucina. L'introduzione si pone come obiettivo:

- diminuire il rischio di accidentali contaminazioni crociate degli alimenti;
- facilitare il professionista nell'operare e nell'offrire un servizio a favore del cliente con intolleranza al glutine;
- sensibilizzare il settore sul tema "gluten free" di fronte alle nuove esigenze dei consumatori.

GLUTEN-FREE CUISINE

Consistently with the functional approach of the brand, a new Paderno project has been designed and implemented to reduce mistakes in the kitchen to the benefit of people with celiac disease. This project has been developed with the collaboration of Associazione Italiana Celiachia Lombardia ONLUS (Italian Society for the Celiac Disease – Lombardy Section). Sambonet Paderno Industrie S.p.A. is thus the first company in its industry that offers a full line of HoReCa items intended for gluten-free cooking.
Some distinguished special features, such as golden PVD handles for pans and pots and a special customised logo for utensils, will allow professionals to easily identify all these items in the kitchen. This innovation aims at:

- *reducing the risk of accidental food cross-contamination;*
- *making it easier for professionals to work and to provide services to clients with gluten intolerance;*
- *raising awareness on the gluten-free diet issue in the industry so as to respond to the new needs of consumers.*

CERTIFICATIONS

UNI EN ISO 22000
Prima nel suo settore Sambonet Paderno Industrie S.p.A. ha ottenuto la certificazione EN UNI ISO 22000:2005. Così come per l'intero comparto food and beverage, anche per il Gruppo la UNI EN ISO 22000:2005 rappresenta lo standard di più alto livello su scala internazionale. L'applicazione dei suoi requisiti, congiuntamente all'applicazione dell'HACCP (Hazard Analysis and Critical Control Points, sistema di autocontrollo igienico che previene i pericoli di contaminazione), garantisce alla clientela un servizio sicuro ed impeccabile attraverso una valutazione puntuale e scrupolosa delle condizioni igieniche e sanitarie delle attività e dei prodotti. Una garanzia di tutela non solo per il personale del canale professionale ma anche, e soprattutto, per il consumatore finale.

UNI EN ISO 22000
Sambonet Paderno Industrie is the first company in its industry that has been awarded the EN UNI ISO 22000:2005 certification. This certification attests to the highest international standard both for the Group and for the whole food and beverage industry. The implementation of its requirements, along with the implementation of HACCP (Hazard Analysis and Critical Control Points, a hygiene system that prevents contamination hazards), ensures the provision of a safe and impeccable service to customers by meticulously and scrupulously assessing the hygienic and safety conditions of activities and products. This is a guarantee not only for HoReCa professionals, but also, and foremost, for final consumers.

UNI EN ISO 9001:2008
La certificazione di qualità conforme ai requisiti della normativa internazionale garantisce la produzione e la commercializzazione di prodotti di qualità, che soddisfino pienamente i requisiti e le aspettative del cliente.

UNI EN ISO 9001:2008
This quality certification ensures compliance with the requirements of the international UNI EN ISO 9001:2008 standard, which guarantees the production and sale of quality products that fully meet customers' needs and expectations.

NSF
La certificazione è stata conseguita per alcuni prodotti grazie al superamento delle rigorose norme applicate negli USA circa i materiali a contatto con gli alimenti. Il marchio NSF (National Sanitation Foundation) è sinonimo di garanzia per i costruttori, ispettori ed utilizzatori.

NSF
Some products by Sambonet Paderno Industrie S.p.A. have obtained the prestigious NSF (National Sanitation Foundation) certification for compliance with the strict standards applied in the USA to materials in contact with foodstuffs. The NSF mark is a guarantee for manufacturers, inspectors and users.

GOST
La certificazione russa GOST (GOST R.), riconosciuta dall'Agenzia Federale per la Tecnica e la Metrologia GOSSTANDART per alcuni articoli, garantisce la conformità di tali prodotti rispetto agli standard applicati dal mercato russo. La sigla GOST è un'abbreviazione di "Gosudarstvennyj Standard" che in russo significa "Standard di Stato".

GOST
Some products by Sambonet Paderno Industrie S.p.A. have been awarded the Russian certification GOST (GOST R) by the Federal Agency for Technical Regulation and Metrology (aka GOSSTANDART), attesting to the compliance with the standards applied on the Russian market. The acronym GOST stands for "Gosudarstvennyj Standard", which means "State Standard" in Russian.

AEO
La certificazione comunitaria AEO Semplificazioni doganali e Sicurezza, conseguita nel 2008, garantisce un'attività disciplinata della regolamentazione doganale dell'azienda qualificandola in fatto di affidabilità e sicurezza nella catena di approvvigionamento internazionale. Nel 2011, inoltre, Sambonet Paderno Industrie S.p.A. ha ottenuto il mutuo riconoscimento del programma AEO con l'amministrazione doganale giapponese, condizione che favorisce ulteriormente i rapporti con il paese.

AEO
In 2008 Sambonet Paderno Industrie S.p.A. obtained the AEO Certification for Customs Simplifications and Security and Safety, valid for the EU. This programme provides a framework for governing customs regulations, guaranteeing that the company provides a reliable and secure service within the international supply chain. In addition, in 2011, Sambonet Paderno Industrie S.p.A obtained the mutual recognition of the AEO programme with the Japanese customs administration, thus further improving customs relations with Japan.

MITTENTE CONOSCIUTO
L'approvazione "Mittente Conosciuto" rilasciata da ENAC (Ente Nazionale Aviazione Civile) riconosce l'Azienda come sito d'origine di merce idonea al trasporto su aeromobili di qualsiasi tipo, in conformità alle procedure e disposizioni comuni di sicurezza.

KNOWN CONSIGNOR
The "Known Consignor" approval issued by ENAC (Italian Civil Aviation Authority) certifies that the company is an originator of cargo suitable for carriage on any aircraft, in compliance with common safety procedures and provisions.

ECCELLENZA 2006
Certiquality ha attribuito a Sambonet Paderno Industrie S.p.A. il Certificato di Eccellenza per aver implementato un sistema di gestione integrata di Qualità, Ambiente e Sicurezza. L'ambito riconoscimento è ottenuto da poche aziende in Italia certificate ISO 9001, ISO 140001 e BS OHSAS 18001.

ECCELLENZA 2006
This prestigious certificate of Excellence, awarded by Certiquality to Sambonet Paderno Industrie S.p.A. for the implementation of an integrated Quality, Environmental and Safety management system, has been granted only to few companies in Italy that have obtained the ISO 9001, ISO 140001 and BS OHSAS 18001 certifications.

AWARD FOR EXCELLENCE
Nel 2006 Sambonet Paderno Industrie S.p.A. è stata insignita dell'Award for Excellence per l'innovazione, rilasciato da Confindustria in riferimento al framework per l'innovazione dell'EFQM–European Foundation for Quality Management.

AWARD FOR EXCELLENCE
In 2006 Sambonet Paderno Industrie S.p.A. received the Award for Excellence for Innovation by Confindustria (the main organization representing Italian manufacturing and services companies) with reference to the framework for innovation of the EFQM–European Foundation for Quality Management.

PRODUCTS

Gli articoli presenti nel catalogo Paderno sono realizzati con materiali di primissima qualità, dotati di tutti i requisiti di sicurezza e idoneità necessari per la loro commercializzazione. Nello specifico sono conformi:

- alla direttiva europea 1935/2004/CEE, relativa ai materiali e oggetti destinati al contatto con gli alimenti.
- alla normativa americana FDA (Food and Drug Administration) 21CFR 177.2600.

Gli articoli sono inoltre conformi alle seguenti norme:

A. OGGETTI METALLICI

Gli oggetti metallici o in lega metallica vengono realizzati seguendo le buone pratiche di fabbricazione (GMP Regolamento CE 2023/2006). In Italia gli articoli in acciaio inox, alluminio, banda stagnata e cromata devono essere conformi a una specifica normativa:

- in acciaio al DM 21/03/1973 aggiornato con il DM 258 del 21 dicembre 2010;
- in alluminio al DM 76 del 18 aprile 2007;
- in banda stagnata al DM del 18 febbraio 1984 smi;
- in banda cromata sono conformi al DM 246 del 1 giugno 1988.

B.OGGETTI IN CERAMICA

Gli oggetti in ceramica risultano essere idonei al contatto con gli alimenti rispondendo ai requisiti specifici stabiliti dal DM 4 aprile 1985 e smi (recepimento della Direttiva 84/500/CEE e 2005/31/CE).

C. OGGETTI VETRO E LEGNO

Gli oggetti in vetro e legno soddisfano i requisiti del DM 21/03/73 e smi.

D. MATERIALI PLASTICI

I prodotti realizzati in materiali plastici sono conformi a:

- al Regolamento n. 2002/72 (e suoi emendamenti) e al Regolamento 10/2011/UE (PIM);
- alla Direttiva CEE sui film di cellulosa rigenerata n. 93/10 e suoi emendamenti;
- alle raccomandazioni BfR (Bundesinstitut für Risikobewertung – Istituto federale tedesco per la valutazione del rischio);
- risultano essere conformi al DM 21/03/73, al Decreto 23/04/2009 (additivi), al Decreto 220 del 26/04/1993 ed al DM 338 del 22/07/98.

I materiali plastici vengono prodotti seguendo le buone pratiche di fabbricazione (GMP Regolamento CE 2023/2006).

E. PFOA FREE

Tutti i prodotti a catalogo in cui viene utilizzato il teflon come materiale antiaderente sono PFOA-free.

I. APPARECCHI ELETTRICI

Gli apparecchi elettrici presenti sul catalogo, salvo ove espressamente indicato, sono forniti secondo lo standard europeo sia per il voltaggio, sia per la presa. L'azienda è in grado di fornire ai clienti assistenza e preventivi ad hoc e suggerisce di richiedere, dal momento in cui gli standard possono variare da paese a paese, informazioni a riguardo.

The articles in the Paderno catalogue are made using top-quality materials and are compliant with all the safety and suitability requirements for sale. Specifically, they comply with:

- *European Directive 1935/2004/EEC about materials and objects in contact with foodstuffs.*
- *FDA (Food and Drug Administration) Regulation no. 21CFR 177.2600.*

The articles produced and sold by Sambonet Paderno Industrie S.p.A. comply with the following standards:

A. METAL OBJECTS

Objects made of metal or metal alloy are made in accordance with good manufacturing practices (GMP Regulation EC 2023/2006). In Italy, items made of stainless steel, aluminium, tin plate and chromed plate must comply with some specific regulations:

- *steel items must comply with the Ministerial Decree of 21 March 1973, as updated by Ministerial Decree no. 258 of 21 December 2010;*
- *aluminium items must comply with Ministerial Decree no. 76 of 18 April 2007;*
- *tin plate items must comply with Ministerial Decree of 18 February 1984, as amended;*
- *chromed plate items must comply with Ministerial Decree no. 246 of 1 June 1988.*

B.CERAMIC OBJECTS

Ceramic objects are suitable for contact with foodstuffs, as they are compliant with the specific requirements set out in the Italian Ministerial Decree of 4 April 1985 as amended (which transposes Directives 84/500/EEC and 2005/31/EC).

C. GLASS AND WOODEN OBJECTS

Glass and wooden objects meet the requirements set out in the Italian Ministerial Decree of 21 March 1973 as amended.

D. PLASTIC MATERIALS

Products made of plastic materials comply with:

- *Regulation no. 2002/72 (and subsequent amendments) and Regulation no. 10/2011/EU (PIM);*
- *EEC Directive no. 93/10 on regenerated cellulose film and subsequent amendments;*
- *the recommendations from the BfR (Bundesinstitut für Risikobewertung – German Federal Institute for Risk Assessment);*
- *the Italian Ministerial Decree of 21 March 1973, the Decree of 23 April 2009 (additives), Decree no. 220 of 26 April 1993 and Ministerial Decree no. 338 of 22 July 1998.*

Plastic materials are made in accordance with good manufacturing practices (GMP Regulation EC 2023/2006).

E. PFOA FREE

All the products in the catalogue in which Teflon is used as a non-stick material are PFOA-free.

I. ELECTRICAL APPLIANCES

The electrical appliances featured in the catalogue (unless expressly indicated otherwise) are supplied in compliance with European standards as regards both voltage and plugs. The company can provide customers with assistance and specific cost estimates. The company suggests seeking relevant information, since standards may vary from one country to another.

ASEC LAB
ALIMENTARY SECURITY CONTROL LABORATORY

Oltre alla conformità rispetto alle norme vigenti, gli articoli prodotti e commercializzati da Sambonet Paderno Industrie S.p.A. sono controllati in maniera sistematica.
Grazie alla costituzione di un gruppo di lavoro e del laboratorio interno ASEC Lab (Alimentary Security Control), specializzato nell'analisi di materiali destinati al contatto con gli alimenti, l'Azienda è in grado di garantire l'idoneità e la sicurezza dei propri prodotti. Il laboratorio è oggi accreditato per realizzare test di migrazione su acciaio, alluminio, porcellana, vetro, materiali plastici e coloranti per il rilascio di dichiarazioni di conformità, riconosciute da qualsiasi ente nazionale e internazionale. ASEC Lab è inoltre accreditato per la determinazione di pH, solventi e metalli nelle acque discarico, una garanzia per le analisi interne sulla qualità delle proprie acque di scarico.

The items produced and sold by Sambonet Paderno Industrie S.p.A. not only comply with applicable regulations, but are also systematically tested. The Company can guarantee the suitability and safety of its products as it has established a specific workgroup and the ASEC Lab (Alimentary Security Control) internal laboratory, which analyses the materials intended to come into contact with foodstuffs.
The laboratory is now accredited to carry out migration testing on steel, aluminum, porcelain, glass, plastic materials and coloring in order to issue declarations of compliance, recognized by both national and international governments. The ASEC Lab is also accredited to determine pH levels, solvents and metals in water discharge, a guarantee for the internal analysis of the wastewater quality.

WORLD CUISINE

SERIE 2500 3-PLY

INDUCTION READY!

La serie Paderno 2500 3-ply concepita per l'utilizzo nelle cucine professionali è costruita in materiale multistrato che assicura una distribuzione rapida ed uniforme del calore su tutta la superficie dell'utensile.
Finitura esterna ed interna satinata.
Bordo a versare.
Manicatura anatomica in acciaio inox.
Parete e fondo a spessore uniforme.
Risparmio di energia su tutti i piani di cottura.
Ideali per ogni tipo di cottura inclusa l'induzione.

Paderno serie 2500 3-ply is especially designed for professional kitchens, features super heat-conductive multi-layer construction that distributes heat from bottom to rim quickly and evenly.
Outside and inside satin polished.
Non-drip edge.
Stainless steel handles, ergonomically shaped.
Uniform thickness in sides and bottoms.
Energy saving on all types of cookers.
Suitable for all cooking ranges, induction hobs included.

La crespella (in francese: crêpe) è una cialda sottile a base di latte, uova e farina. Farcita di ripieni vari, dolci o salati è generalmente considerata una pietanza tipica della cucina francese.
The pancake (in French: crêpe) is a type of thin wafer made from milk, eggs and flour. Usually stuffed with various fillings, sweet or salty and rolled up this pancake is generally considered as a a typical French dish.

PADERNO WORLD CUISINE

PADELLE FERRO
STEEL FRYING PANS

INDUCTION READY!

Il ferro è ottimo per le cotture a fuoco molto vivo perché, non avendo un'alta capacità di trasmettere calore, evita improvvisi sbalzi di temperatura. Essendo un materiale antiaderente, evita l'attaccamento dei cibi. Sopporta temperature elevatissime e col tempo migliora il suo rendimento. I recipienti in ferro sono i più adatti per fritture, omelette o sottili crêpes. La padella in ferro nera va lavata con acqua il meno possibile e mantenuta sempre unta.
Il ferro è il materiale ideale anche per cotture a induzione.

Iron is ideal for cooking at high temperatures because its low capacity of heat transmission prevents temperature leaps. As it is non-stick, food does not stick to it. It withstands very high temperatures and improves its performance with use. Iron pans are perfect for fried food, omelettes or fine crêpes. Wash the black iron pan in water as little as possible and always keep it greased.
Iron pans are ideal also for cooking on induction hobs.

GHISA SMALTATA
ENAMELLED CAST IRON

INDUCTION READY!

SLOW COOKING - FAST GRILLING - COOK & SERVE

Idonee all'uso su tutte le fonti di cottura (gas, elettriche, vetroceramica, induzione) e forni (gas, petrolio, carbone o legna) ad esclusione di microonde. Una perfetta armonia tra ghisa, smalto e alta qualità. Progettate e costruite per assorbire e diffondere il calore in modo uniforme. La ghisa è adatta a tutte le tecniche di cottura, per zuppe, arrosti, risotti, dolci, per piatti che richiedono una lunga cottura tipo brasati e allo stesso modo ideale per carni e verdure alla griglia in quanto ne esalta sapori ed aromi in stile barbecue. La ghisa ha anche caratteristiche di antiaderenza. La temperatura elevata della padella cauterizza la superficie della carne. Tutto il sapore, l'acqua e i valori nutrizionali rimangono sigillati nel cibo. Nella cottura in casseruole, il vapore generato grazie al particolare design del coperchio si condensa ricadendo e mescolandosi nuovamente nel cibo non solo trattenendo sapori e aromi ma fornendo la miglior protezione alle sostanze nutrienti e contribuendo ad una dieta sana. La ghisa è un materiale riciclabile al 100% e quindi ecologico. Inoltre, grazie alla sua capacità di mantenere il calore per lungo tempo consente un notevole risparmio di energia permettendo di cuocere a fuoco basso. Anche a tavola mantengono in cibi in temperatura. La ghisa mantiene però il caldo come pure il freddo... può essere usata per mantenere il cibo fresco. Riposta per un breve periodo in frigorifero, mantiene il cibo fresco nelle calde giornate estive e ideale per servire insalate di pasta, riso, farro, ecc., ecc. Pratica e facile da pulire. Queste casseruole e padelle in ghisa sono lavabili in lavastoviglie, per merito della speciale tecnologia applicata al metodo di smaltatura. Manicatura e pomoli dal design ergonomico sono in ghisa e inox. Durante la cottura si raccomanda di maneggiare con un panno consistente e asciutto per evitare di scottarsi.

Suitable for use on all cooking hobs (gas, electric, ceramic, induction) and ovens (gas, oil, coal or wood) except microwave. A perfect harmony of cast iron, enamel and high quality. Designed and constructed to absorb and spread the heat evenly. Cast iron is suitable for all cooking techniques, for soups, roasts, rice, desserts, for braise that require a long cooking and likewise ideal for meats and grilled vegetables as it enhances flavors and aromas like barbecue style. Cast iron also features non-stick. The high temperature of the pan sears the meat surface. All the flavor, water and nutritional values remain sealed in the food. When cooking in casseroles, the steam generated thanks to the special design of the cover condenses falling back into the food not only retaining flavors and aromas but providing the best protection for nutrients and contributing to a healthy diet. Cast iron is a material 100% recyclable and therefore environmentally friendly. Moreover, thanks to its ability to retain heat for a long time it allows a considerable saving of energy. With closed lid on the table, the pot will preserve the temperature for a second serving. Cast iron retains the heat but as well the cold... can be used to keep the food fresh. Stored for a short time in the refrigerator, keeps food cool during hot summer days, ideal for serving pasta or rice salads, etc. Practical and easy to clean. These cast iron pots and pans are dishwasher safe thanks to the special technology applied to their enameling method. Ergonomic knobs and handles made of cast iron and stainless steel, suitable for use on all heat sources and ovens except microwave. Be careful, they heat up during cooking, it is recommended to handle with a dry thick cloth.

I soufflé, piatto tipico della cucina francese, sono delle preparazioni, dolci o salate, cotte al forno e composte da un impasto di burro, farina, latte e tuorli d'uova, il tutto unito ad albumi montati a neve. La preparazione dei soufflé non è complessa, la fase più critica per la buona riuscita della ricetta è la cottura: i soufflé devono risultare soffici e belli gonfi.
Soufflé is a typical French dish. It can be sweet or savory, the basic mixture is made of butter, flour, milk and eggs. Soufflé recipes are actually quite easy and simple to prepare. The most critical part for the success of the recipe is cooking. The soufflé should be soft and beautifully puffed.

Cesta per friggere da forno, consente di cuocere in pochi minuti e senza grassi grandi quantità di cibi prefritti. La costruzione in filo consente al calore di cuocere facilmente garantendo una doratura uniforme. Una soluzione salutare che permette di eliminare i costi d'acquisto, conservazione e smaltimento degli oli e dei grassi.
This stainless steel oven fry basket is primarily used for cooking fried products in a convection oven. The wire construction allows the oven's dry heat to cook food easily and provides an evenly-browned and crispy finish to foods such as French fries. The basket's size makes it easy to cook large quantities at a time. This healthy alternative to deep-frying also saves space and costs, as it eliminates the need to purchase, store and dispose of oils.

La grigliatura degli alimenti è uno dei metodi di cottura più antichi: è semplice, veloce e dona alle pietanze un sapore caratteristico, ottimale per tutte le preparazioni, carne, pesce e verdure. Ideale per le preparazioni in grande quantità per catering e nella banchettistica, party/feste open-air. Quando la carne viene posta sulla griglia, il calore accumulato fa sì che i pori si chiudano immediatamente, garantendo così una perdita di succhi e peso molto limitata.
Grilling food is one of the oldest methods of cooking, simple and fast it gives a distinctive flavor to dishes, suitable for all preparations, whether meat, fish or vegetables. Ideal for preparation in large quantities for catering and banquets, meals/open-air festivals. When the meat is placed on the grid, the heat stored immediately closes the pores, thus guaranteeing a very poor loss of juice and weight.

In policarbonato, trasparente ed infrangibile. La superficie liscia dell'interno facilita la pulizia. Resistenti alle macchie, non attaccabili dagli acidi dei cibi, da oli o da alcol. Termoresistenti da -100°C a +100°C. Con scala graduata in litri. Impilabili, sono ideali per la conservazione, trasporto ed esposizione.

Polycarbonate, clear and unbreakable. Smooth surface is easy to clean. Stain resistant, not harmed by food acids, oils or alcohol. Temperature range: -100°C to + 100°C. With metric graduation. Stackable, ideal for storage, transportation and serving display.

Realizzati con materiali approvati FDA. Studiati e realizzati in ottemperanza alla normativa UNI EN 631-1. Ottima resistenza agli urti. Eccellente trasparenza (0,6 HAZE). Pareti completamente lisce per permettere di identificare facilmente il contenuto e per agevolare il lavaggio. Dotati di scala graduata sia secondo sistema metrico che americano. Gradino di sovrapponibilità che consente agevole impilaggio. Utilizzabili nel microonde ma non per tempi prolungati. Sopportano temperature da -40°C a +110°C. Fondo esternamente foto-inciso anti-graffio. AVVERTENZE - I contenitori in policarbonato non sono raccomandati per l'uso su tavole a vapore; evitare il contatto con sapone di Marsiglia. Per il lavaggio si consiglia l'utilizzo di detergenti con PH neutro e, in ogni caso, con PH inferiore a 11. L'utilizzo di detergenti fortemente alcalini (PH>11) o a base di alcool, solventi clorurati, ammoniaca e l'impiego di spugne abrasive potrebbe danneggiare irrimediabilmente i prodotti.

Made with FDA approved materials. Designed and manufactured in compliance with UNI EN 631 1. Excellent resistance to shocks. Excellent transparency (HAZE 0.6). Walls completely smooth to allow easy identification of content and easy cleaning. Graduated scale according to both metric and American system. Nest for easy storage. Can be used in microwave ovens but not for prolonged times. Withstands temperatures from -40°C to +110°C. External bottom photo etched anti scratch. WARNING - Polycarbonate containers are not recommended for use on steam tables, avoid contact with soap. For cleaning we recommend detergents with neutral pH and, in any case , with a pH less than 11. The use of detergents strongly alkaline (pH>11) or alcohol, chlorinated solvents, ammonia and abrasive pads may irreparably damage the product.

The lids of the series 14800 polycarbonate and 14600 Tritan are interchangeable.
Hermetic lids, NOT water-tight.

Traslucide e resistenti, impilabili, leggere e maneggevoli. Realizzate in polipropilene alimentare, conformi alle normative alimentari internazionali. Non si impregnano di odori e sapori. Lavabili a mano o in lavastoviglie con normali detersivi. Non utilizzare pagliette d'acciaio o ruvide, evitare l'uso di sostanze abrasive. Termoresistenti da -40°C a +100°C. Scala di graduazione in litri per un controllo istantaneo della quantità. Coperchio resistente per una perfetta chiusura stagna. Utilizzabili per la refrigerazione, lo stoccaggio, trasporto, esposizione e distribuzione di tutti i tipi di alimenti.

Made in polypropylene, full compliance with food contact sanitation requirements, light, odourless, transparent, dish-washer safe, unbreakable. Cold resistant up to -40°C - Heat resistant up to +100°C. Easily cleanable, designed to allow for nesting empty containers within one another and stacking bottoms a top of lids. Provided with metric graduation. Lids tightly fitting. Ideal for commercial food processing and handling facilities. Can be used in all public places where food is prepared, hot/cold stored or served, for holding and display.

N

Realizzati con materiali approvati FDA. Eccellente soluzione economica per la preparazione, esposizione e conservazione dei cibi. Ottima resistenza agli urti a temperatura ambiente. Buona trasparenza che permette di identificare facilmente il contenuto al proprio interno. Sopportano temperature da -40°C a +80°C. Dotati di scala graduata sia secondo sistema metrico che americano. Gradino disovrapponibilità che consente agevole impilaggio. Disponibili con coperchi ermetici trasparenti o colorati. AVVERTENZE: I contenitori in polipropilene non sono indicati per l'uso su tavole a vapore.

Made with FDA approved materials. Excellent economical solution for the preparation, display and storage of foods. Excellent impact resistance at room temperature. Good transparency that allows to easily identify the contents. Withstands temperatures from -40°C to +80°C. With both metric and American graduated scale. Nest for easy storage. Available clear or colored airtight lids. WARNING: polypropylene containers are not suitable for use on steam tables.

I coperchi della serie 14900 polipropilene e 15100 polipropilene IML sono intercambiabili. Coperchi ermetici, NON a tenuta stagna.

The lids of the series 14900 polypropylene and 15100 polypropylene IML are interchangeable. Hermetic lids, NOT water-tight.

Realizzati con materiali approvati FDA. Con etichetta permanente grazie alla tecnologia IML che consente di avere un'etichetta costampata, niente più etichette adesive che tendono a lasciare residui appiccicosi richiedendo poi operazioni di raschiatura. I contenitori in polipropilene IML aiutano a garantire la sicurezza e l'igiene degli alimenti secondo la normativa HACCP. Sono disponibili sia con coperchi colorati che con coperchi trasparenti con sede per COLOR CLIPS per evitare la contaminazione tra i vari alimenti. Per scrivere sull'etichetta è disponibile un pennarello specifico che viene rimosso con il semplice lavaggio in lavastoviglie. Ottima resistenza agli urti a temperatura ambiente. Buona trasparenza che permette di identificare facilmente il contenuto al proprio interno. Sopportano temperature da -40°C a +80°C. Dotati di scala graduata sia secondo sistema metrico che americano. Gradino di sovrapponibilità che consente agevole impilaggio. AVVERTENZE - I contenitori in polipropilene non sono indicati per l'uso su tavole a vapore.

Made with FDA approved materials. With permanent label thanks to the IML technology that allows you to obtain an in molded label. No more labels that leave sticky residue requiring scraping operations. The IML polypropylene containers help ensure the safety and hygiene of food according to HACCP standards. They are available with colored lids or transparent lids with COLOR CLIPS to prevent contamination between different foods. To write on the label there is a specific marker that can be removed by simply washing in the dishwasher. Excellent impact resistance at room temperature. Good transparency that allows you to easily identify the contents. Withstands temperatures from -40°C to +80°C. With both metric and American graduated scale. Nest for easy storage. WARNING: polypropylene containers are not suitable for use on steam tables.

Pressapolipo, inox
Octopus-press, stainless steel
Krake-Presse, Edelstahl Rostfrei
Presse à poulpe, inox
Prensador para pulpo, inox

art.	ø cm.	h.
49760-00	10,5	20,5

Inserendo la polpa di polipo nel Pressapolipo si otterrà un composto uniforme e compatto. Pratico e facilmente affettabile per poter inventare gustosi piatti e decorazioni uniche.
Octopus-press to obtain a compact and uniform compound. Pratical and easy to slice to invent tasty plates and sole decoration.

Dotazione: A - 1 vite con volantino B - 2 chiavi fermadischi C - 2 tubi inox D - 2 dischi inox E - 2 dischi inox con foro.
Equipment: A - *1 screw with handweel* B - *2 spanners to lock the discs* C - *2 stainless steel cylinders* D -*2 stainless steel discs* E - *2 stainless steel discs with hole.*

1 - Inserire un dischetto inferiore (non forato) all'interno del cilindro. - *Put a lower disc (without hole) in the cylinder.*

2 - Inserire all'interno del cilindro la polpa di polipo bollito. - *Put some boiled octopus in the cylinder.*

3 - Inserire il dischetto inferiore forato sopra la polpa di polipo. - *Put the upper disc with hole on top of the octopus.*

4 - Inserire la vite facendola combaciare con il foro del dischetto superiore. Pressare la polpa di polipo ruotando in senso orario il volantino. *Insert the screw matching it with the hole of the upper disc. Then press the octopus by rotating in a clockwise direction the handwheel.*

5 - Inserire la chiave fermadisco negli appositi fori. Il composto di polipo è così bloccato tra i due dischetti. Riporre il cilindro nel frigorifero per circa due ore. - *Insert the spanner to lock the disc in the appropriate discs. Now the octopus is locked between the two discs. Put the cylinder in the fridge for about two hours.*

6 - Estrarre il composto ottenuto dal cilindro e affettare a piacimento per gradevoli decorazioni. *Extract the compound obtained by the cylinder and slice as you like to create pleasant decorations.*

Preparazione tipica della Germania meridionale. Gnocchetti a base di farina di grano tenero, uova e acqua, dalla caratteristica forma a goccia che si ottiene con una grattugia formata da una base bucherellata sulla quale scorre un recipiente contenente l'impasto che viene fatto scorrere avanti e indietro. Dopo essere stati lessati, gli Spätzle vengono ripassati nel burro e serviti come primo piatto o come contorno. - *Spätzle are a typical preparation of southern Germany. These are dumplings made from wheat flour, eggs and water. Spätzle have a characteristic shape of a drop which is obtained with a special grater formed by a perforated base on which slides a basin containing the mixture. After being boiled, the Spätzle are heated up in butter and served as a first course or as side dish.*

POLYPROPYLENE HANDLE

Un'ampia gamma di utensili professionali per la cucina, indispensabili per creare decorazioni originali e fantasiose, ma utili anche per svolgere le più semplici operazioni in modo preciso e veloce. Tutti i pezzi sono realizzati in acciaio inox 18/10, mentre la manicatura ergonomica è prevista nella versione acciaio inox o polipropilene. Tutti gli articoli sono dotati di un foro sul manico per essere appesi. Lavabili in lavastoviglie. Il design è moderno e funzionale per il massimo comfort d'utilizzo.

A wide range of professional kitchen utensils. These are essential tools to make original decorations as well as to ease the preparation of your recipes. All items are made of 18/10 stainless steel while their ergonomic handles are available both in stainless steel and Polypropylene. They are all hangable and can be cleaned in dishwasher. They boast a modern, functional design and are very easy to use.

Zuppa di miso è una zuppa tradizionale giapponese, ci sono molti modi per prepararla, la versione base è costituita da un brodo chiamato "dashi" in cui viene ammorbidita la pasta di miso, alga Wakame, zenzero e erba cipollina. Molti ingredienti vengono aggiunti in base alle ricette regionali e stagionali e le preferenze personali. - *Miso soup is a traditional Japanese soup consisting of a stock called "dashi" into which softened miso paste is mixed. Many ingredients are added depending on regional and seasonal recipes, and personal preferences.*

La parola giapponese per le bacchette "Hashi" significa "ponte". A differenza delle bacchette cinesi, che sono squadrate e nella parte terminale smussate, quelle giapponesi sono arrotondate e rastremate all'estremità (molto più difficili da usare). Questo sembra per facilitare la rimozione delle lische dal pesce alla base della dieta giapponese. - *The Japanese word for chopsticks "Hashi" means "bridge". Unlike Chinese chopsticks, which are squared-off and blunt at the end, these Japanese utensils are rounded and tapered to a point at the end (much more difficult to use). It has been suggested that this is in order to facilitate the removal of bones from fish, which makes up a great part of the Japanese diet.*

La griglia sul wok mantiene in caldo il cibo che ha terminato la cottura, metre l'olio cola nel wok. - *The tempura rack attached to the wok holds food that has finished cooking, so that it stays warm while oil drains back into the wok.*

La tempura è un piatto tipico della cucina giapponese che consiste in un fritto croccante e leggero, fatto di verdure e pesce. Il nome deriva dal termine latino "tempora" che indica quattro periodi dell'anno corrispondenti alle quattro stagioni; in questi frangenti di tempo i cristiani evitavano di mangiare carne, nutrendosi solo di pesce e verdure. Si narra che, durante il XVI secolo, alcuni missionari portoghesi giunsero sino in Giappone e qui fecero conoscere al popolo del Sol Levante la tradizione dei tempora; consuetudine che fu poi personalizzata dai giapponesi che iniziarono a friggere verdure e pesce con una pastella leggera. - *The tempura is a typical Japanese dish consisting in fried vegetables and fish, crispy and light. The name of this food comes from the Latin term "tempora" indicating four periods of the year corresponding to the four seasons during which Christians abstain from eating meat, eating only fish and vegetables. The story goes that during the sixteenth century, Portuguese missionaries arrived in Japan and taught the people of the Rising Sun the tradition of tempora. Later on this dish has been customized by the Japanese who began to fry vegetables and fish with a light batter.*

Balti e karahi sono lo stesso stile di cucina, originario del Kashmir, dove le pietanze al curry sono realizzate in una padella in ghisa con fondo arrotondato e due maniglie, simile ad un wok cinese. Spezie tipiche utilizzate sono: anice, cardamomo, corteccia di cassia, chiodi di garofano, coriandolo, cumino, finocchio, zenzero e una miscela di spezie chiamata garam masala. Spesso questi pasti vengono consumati senza riso o posate, utilizzando un pane indiano detto naan. - *Balti and karahi are the same style of cooking, originating in Kashmir, where the curries are made in a cast-iron pan with a rounded bottom and two handles, rather like a Chinese wok. Typical spices used in balti curries are aniseed, cardamom, cassia bark, cloves, coriander, cumin, fennel, ginger and the spice blend called garam masala. Balti curries are often eaten without rice or cutlery, using large, flat breads such as naan.*

Queste padelle piane sono utilizzate nella cucina indiana, per focacce e tutto ciò che ha bisogno di cottura rapida ad alta temperatura. L'anatra di Bombay a volte viene cucinata su tawa. CURIOSITA': L'anatra Bombay o bummalo, nonostante il nome, non è una papera, ma bensì un pesce. E' originario delle acque tra Mumbai (ex Bombay) e Kutch nel Mar Arabico. - *These flat pans are used in Indian cooking, for chapattis and anything that needs quick cooking at high temperatures. Bombay duck is sometimes cooked on a tawa. The Bombay duck or bummalo is, despite its name, not a duck but a lizardfish. It is native to the waters between Mumbai (formerly Bombay) and Kutch in the Arabian Sea.*

Tecnica di cottura degli alimenti in una casseruola di terracotta che è stata prima immersa in acqua in modo da liberare il vapore durante il processo di cottura. Evitare sbalzi di temperatura, posizionare la casseruola con il suo contenuto in forno non preriscaldato. Tradizionalmente la casseruola viene utilizzata per servire direttamente dal forno alla tavola. Non mettere in lavastoviglie. - *Clay pot cooking is a technique of cooking food in an unglazed clay pot which has been soaked in water so as to release steam during the cooking process. Avoid rapid temperature changes, place the pot with its content in a cold oven and set the temperature. Traditionally the clay pot is served right from oven onto the dinner table. Do not put in dishwasher.*

PADERNO WORLD CUISINE

COLTELLI SUSHI GIAPPONESI P
JAPANESE SUSHI KNIVES

Una scelta eccellente per la preparazione di sushi e verdure. Lame in acciaio inox, molibdeno e vanadio, per un'ottimale tenuta del filo, affilatura a rasoio, manici in legno antiscivolo. Secondo la tradizione giapponese l'affilatura è unilaterale ed il filo è molto più sottile rispetto a quello della normale affilatura dei coltelli occidentali. Questo rende i tagli più nitidi ed evita di creare traumi alla trama delicata di carne e pesce crudo. Non utilizzare per il taglio di solidi incluse grosse lische di pesce. Data la particolarità dell'affilatura e dell'acciaio impiegato si consiglia vivamente di lavare a mano ed asciugare immediatamente con cura le lame.

Excellent choice when preparing sushi and vegetables. Molybdenum/Vanadium s/s blades for excellent edge retention, razor sharp edges, slip resistant wooden handles. The blades are sharpened with the traditional Japanese single bevel to improve sharpness. The large beveled one-sided edge is much thinner than a two-sided edge. This thinner, sharper edge makes for cleaner cuts through the soft flesh of fish, in particular. Using these knives will avoid bruising the delicate texture of raw fish and destroying the freshness of the fish. The thinner edge is more fragile than the edge on western knives. Do not use for cutting anything solid including larger fish bones. Due to the special blade sharpening and s/s used we highly recommend to only hand wash and dry the blades thoroughly immediately.

DEBA

Affilato e dalla lama pesante usato per disossare e tagliare il pesce utilizzato nel sushi. È simile ad un coltello da chef. - *The Deba is a powerful knife used for filleting fish and butchering meat without bones. Its weight and thickness can chop through fish bones and the sharp edge can fillet even the smallest of fish.*

*double bevel

TAKO SASHIMI

Il coltello Tako Sashimi assomiglia di più ad un coltello occidentale ed è utilizzato per affettare tagli spessi di carne per sushi. Ha la lama senza punta, per evitare di rovinare i tentacoli del polpo. - *The Tako Sashimi is a variation of the Yanagi and is used to slice straight-cut sashimi. The blunt tip and balanced weight works well on difficult ingredients like octopus, from which it gets its name. Originated in Kanto (Tokyo) region.*

Supporti di cottura Silform® specifici per pane, antiaderenti, ideali per panini tondi, hot dogs, panini al latte, per hamburger, baguettes, ecc., ecc. La loro texture perforata ottimizza il trasferimento del calore per una perfetta croccantezza e doratura del prodotto. Si utilizzano indifferentemente su teglie in alluminio o griglie.

Silform® baking sheets are especially studied for breads, non-stick and ideal for a variety of small bread shapes: round, hot-dogs rolls, soft rolls, submarines, hamburger buns, sandwiches, etc., ect. Thanks to their perforated texture, the heat transfer is optimized, allowing unique crunchy and coloration. Can be used indifferently on aluminum baking trays or grids.

NORME D'USO E MANUTENZIONE DELLE TEGLIE

Importante: Indipendentemente dal tipo di materiale, tutte le teglie piane non vanno mai infornate vuote.

Teglie in lamiera bluita (ferro blu)
I prodotti vengono forniti oleati in modo tale che in condizioni normali di imballaggio, trasporto, manipolazione e immagazzinaggio non presentino fenomeni di corrosione per un periodo non superiore a 3 mesi. Prima dell'uso vanno messi nel forno a 150°C per mezz'ora in modo tale da eliminare l'olio industriale di protezione. Dopo l'uso devono essere mantenuti sempre oleati e conservati in luoghi asciutti, soprattutto se utilizzati saltuariamente e deve essere evitato il contatto con sostanze acide. Sconsigliato l'uso in cella di lievitazione e surgelazione. Per la pulizia utilizzare un panno morbido oleato. Sconsigliato il lavaggio con acqua e soluzioni caustiche.

Teglie in lamiera alluminata
Devono essere mantenute oleate ma essendo la lamiera trattata e rivestita di alluminio presentano una maggiore resistenza all'ossidazione. Prima dell'uso vanno messe nel forno a 150°C per mezz'ora in modo tale da eliminare l'olio industriale di protezione. Possono essere utilizzate in cella di lievitazione e surgelazione. Per la pulizia utilizzare un panno morbido oleato. Sconsigliato il lavaggio con acqua e soluzioni caustiche.

Teglie in alluminio
Non presentano particolari problemi di mantenimento. Le caratteristiche meccaniche dell'alluminio possono alterarsi ad una temperatura superiore ai 300°C, solitamente non raggiunta dai forni. Per la pulizia utilizzare un panno morbido inumidito.

Teglie antiaderenti
Per la pulizia utilizzare il getto d'aria o delle spazzole di nylon morbide. Non graffiare il rivestimento con attrezzi metallici o spazzole abrasive in quanto le incisioni possono dar luogo a permeazione ed in seguito a corrosione.
Non mettere gli stampi vuoti nel forno di cottura a temperature superiori a 200°C. Questa temperatura rappresenta il limite di resistenza termica della resina. Oltre a tale temperatura il rivestimento rammollisce sensibilmente portando ad un decadimento rapido delle caratteristiche di antiaderenza. Non lavare le teglie con pulivapor ad alta pressione e non utilizzare soluzioni caustiche. Per la pulizia utilizzare panni morbidi inumiditi.

BAKING SHEET USAGE AND MAINTENANCE INSTRUCTIONS

Important: Quite apart from the material baking sheets are made of, never put them empty in the oven.

Blue steel baking sheets
Blue steel baking sheets are supplied oiled, in order to prevent corrosion for a period of about 3 months under normal packing, transport, handling and stocking conditions. Before use, put them at 150°C in the oven for half an hour, in order to eliminate the protective industrial oil. After usage keep them oiled and dry-stored, mainly if sporadically used. Keep away from acid substances. We suggest not use them in leavening or freezing cells. Clean with an oiled soft cloth. Do not wash with water and caustic solutions.

Alusteel baking sheets
Alusteel baking sheets should better kept oiled but, thanks to the special aluminum coating they show a higher resistance against oxidation. Before use, put them at 150°C in the oven for half an hour, in order to eliminate the protective industrial oil. They can be used both in leavening and freezing cells. Clean with an oiled soft cloth. Do not wash with water and caustic solutions.

Aluminum baking sheets
Aluminum baking sheets do not need any special maintenance. Aluminum mechanical features can alter at a temperature above 300°C, which is usually not reached by common ovens. Clean with a moist soft cloth.

Non-stick baking sheets
Clean with air-jet or soft nylon brushes. Do not scratch the coating with metallic utensils or abrasive brushes, because scratches can lead to permeation and subsequently corrosion. Do not put empty sheets in the oven at 200°C or more. This is the border-line temperature for the resin thermal resistance. Moreover, at such a temperature the coating softens and this causes a faster decline of non sticking features. Do not wash the baking sheets with high pressure pulivapor (steamer) and avoid contact with caustic solutions. Always clean them with a moist soft cloth.

P SERIE 18100

COLTELLI FORGIATI
FORGED KNIVES

Uno studio approfondito e prove computerizzate di ergonomia, movimento e postura hanno permesso a Paderno di creare una linea di coltelli professionali, sintesi perfetta tra comfort e perfezione del taglio. Manico realizzato in speciale materiale plastico sviluppato per il settore alimentare, design ergonomico con bordi arrotondati, presa perfetta per garantire un taglio di precisione. Lama forgiata realizzata in lega di speciale acciaio, molibdeno e vanadio con particolare processo di tempra che garantisce al prodotto un ottimo taglio ed una perfetta e lunga tenuta di filo.

A deep study and computerised tests of ergonomics, movement and posture have allowed Paderno to create a professional knives line, that is the synthesis of comfort and cutting precision. Handle made of plastic specially developed for the food processing sector, ergonomic design with soft edges, perfect grip to ensure precise guidance. The forged blade realised in special steel and molybdenum/vanadium, thanks to a peculiar hardening process, guarantees to the product a perfect cut and a long life of the blade's edge.

SERIE 18000 P

COLTELLI SERIE TRANCIATA
SHEAR KNIVES

La linea di coltelleria professionale "CCS"– Color Coding System riduce i rischi di contaminazione incrociata grazie all'utilizzo di un Sistema di Codifica dei Colori che identifica ogni coltello per un uso specifico e permette di individuare facilmente le diverse aree di lavoro. Gli acciai utilizzati per questa linea di coltelleria presentano un'eccezionale durezza ed elevata resistenza alla corrosione, grazie all'uso del sistema ICE-HARDENING, processo speciale per temprare l'acciaio. Per ogni articolo sono riportati i colori del manico in cui si rende disponibile, nonchè le dimensioni delle rispettive lame. Il codice indicato nelle tabelle (es. 18000-16) si riferisce al manico in colore nero. Il codice del manico colorato si ottiene sostituendo il trattino con la lettera corrispondente al colore, da ricercarsi nella legenda. Se ad esempio si vuole ordinare un coltello con il manico rosso, la lettera corrispondente è la "R" e il codice di riferimento il 18000R16.

The professional cutlery line "Color-Line" helps to reduce the risk of cross contamination using a Color Coding System which identifies each knife with a specific task: different food processing areas are easily identified.
The steel used for this cutlery line has exceptional hardness and very high resistance to corrosion due to ICE-HARDENED system, a special process to harden the steel.
The colors of the handle for each article are indicated, as well as the dimensions of the respective blades.
The reference in the descriptions (ex. 18000-16) refers to the handle in black color.
The code of the colored handle is given by replacing the hyphen with the corresponding letter of the color, please see the key.
For instance if you would like to order a knife with the red handle, the corresponding letter is "R" and the reference is 18000R16.

R = ROSSO / RED	M = MARRONE / BROWN	B = BLU / BLUE	Y = GIALLO / YELLOW	G = VERDE / GREEN	W = BIANCO / WHITE
Carni crude	Verdure	Pesce	Carni cotte, polleria	Insalate, frutta	Latticini, pane
Raw meat	*Vegetables*	*Raw fish*	*Cooked meat, poultry*	*Salad, fruit*	*Dairy products, bakery*

Santoku è un coltello di origine giapponese tra il trinciante (coltello da cuoco) ed il coltello da verdure. La parola Santoku significa "tre virtù", infatti si adatta benissimo a tre tipi di alimenti da tagliare: carne, pesce e verdure, questa caratteristica lo rende in assoluto il coltello più universale in cucina. Le speciali scanalature e la dentellatura sottile sul retro della lama conferiscono al coltello una perfetta e più lunga tenuta di filo ed un'ottima ventilazione durante il taglio. La lama può essere riaffilata normalmente mantenendo le caratteristiche conferite dalle scanalature.
The Santoku knife is a general-purpose kitchen knife originating in Japan. The word santoku loosely translates as 'three virtues' or 'three uses', a reference to the three cutting tasks the knife performs well: slicing, dicing, and mincing. The special grooves and slim serration on the back side of blade make this knife very sharp and easy to cut and allow good ventilation while slicing (non-stick).The knife can be sharpened on both sides, retaining serration and more efficient long lasting sharpness.

AFFILATURA

Acciaino e pietra per affilare, due utensili indispensabili per la buona manutenzione dei coltelli. Per ottenere una corretta affilatura, occorre mantenere un angolo costante di 15-20 gradi tra la lama e il mezzo affilante durante l'operazione.

ACCIAINO

L'acciaino serve a correggere e mantenere l'affilatura dei coltelli. Esso riallinea le molecole che compongono il bordo tagliente, che sono state spostate dagli urti continui, "ripristinando" l'affilatura. L'acciaino tradizionale è di forma tonda, molti chefs usano però un acciaino ovale in quanto la forma più larga permette un movimento di affilatura più ampio ed efficiente. L'acciaino diamantato è invece particolarmente efficace per riaffilare coltelli a lama liscia e può ripristinare un filo di un buon coltello con 6 fino a max 10 movimenti.

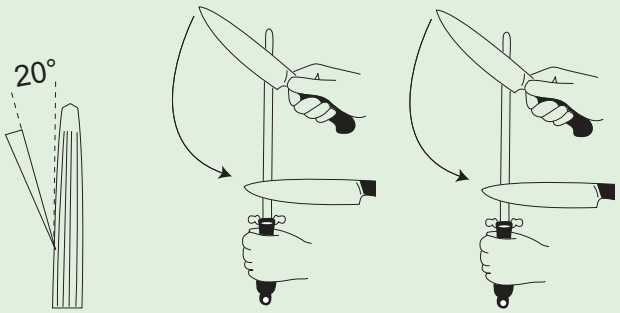

SHARPENING

Sharpening steel and stone, two indispensable utensils for the knives' good maintenance. To operate a correct sharpening a constant angle of 15°-20° must be kept between the blade and the sharpening utensils during the operation.

SHARPENING STEEL

The sharpening steel is useful to correct and maintain the knives sharpening. It readjusts the molecules that are the basis of the cutting edge, that have been shifted by the usage. The traditional sharpening steel is round shaped, lots of chefs use anyway an oval shaped one, because the larger shape enables a wider and more efficient sharpening movement. The diamond sharpening steel is particularly indicated for knives with flat blade and can renew a good knife's edge with just 6 to a maximum of 10 movements.

VALORI DI INCLINAZIONE
INCLINATION VALUE

Larghezza lama (l) ***Width (l)***	**Altezza inclinazione (h)** ***Height of inclination (h)***
2 cm	6 mm
4 cm	12 mm
6 cm	18 mm
8 cm	24 mm
10 cm	30 mm
12 cm	26 mm

PIETRA ABRASIVA

L'affilatura vera e propria si esegue con la pietra abrasiva, composta di solito da ossido di alluminio o da carburo di silicio e deve necessariamente essere immersa in acqua prima dell'utilizzo, per garantire la sua lubrificazione durante l'uso. Esistono differenti tipi di pietra, identificate da livelli di grana diversi (grossa, media, fine), da utilizzare in relazione allo stato della lama: una pietra con grana fine (1000 grit) si utilizzerà per perfezionare l'affilatura, la grana grossa (300 grit) per un coltello che abbia perduto completamente il filo.

Procedimento di affilatura
Posizionare la pietra abrasiva con il suo supporto in gomma antiscivolo sul piano di appoggio.
Scegliere l'angolo di affilatura (per i coltelli da cucina di uso comune 15-20°) .
Applicare un movimento continuo, circolare o alternato alla lama sulla pietra, facendo attenzione a mantenere costante l'angolo di affilatura e a mantenere la lama sempre a contatto con la superficie della pietra.

ABRASIVE STONE

The true sharpening is done using the abrasive stone, usually composed by aluminum oxide or by silicone carbide and must absolutely be rinsed in water before usage in order to guarantee its lubrication during work. There are several types of stone, identified by different grains (coarse, medium, fine) that have to be used according to the blade condition: a stone with fine grain (1000 grit) will be used to improve the sharpening, a coarse grain (300 grit) for a knife that has completely lost the cutting edge.

Sharpening procedure
Placing the abrasive stone with its no-sliding rubber support on the standing surface.
Choose the sharpening angle (for commonly used kitchen knives 15°-20°).
Move the stone on the blade with a continuous, circular or alternate movement, carefully maintaining the same sharpening angle and always keeping the blade in touch with the stone surface.

Ambidestro. Protegge le Vostre mani dal contatto con fiamme e teglie fino a 300°C, antiscivolo, stagno all'acqua e agli oli bollenti, lavabile in lavastoviglie.
Ambidextrous. Protects your hands from direct contact with flame and pans up to 300°C, non-slip, water and oil tight, dishwasher safe.

PATATE: Il guanto per patate è il più popolare. In taglia unica è ideale per pulire, lavare le patate in genere, come pure molte altre verdure.
VERDURE: Il guanto per verdure è un guanto universale. In taglia unica è ideale per pulire, lavare patate, radici, bietole, funghi, zucche/zucchine, mais e quant'altro.
PESCE: Il guanto per pesce è ideale per impugnare saldamente, pulire e strofinare frutti di mare e pesce. Il guanto include un innovativo inserto desquamante.
POTATO: The potato glove is the most popular scrubbing glove. The glove is a one size fits all and ideal to scrub, rinse and clean new potatoes, baked potatoes and many other vegetables.
VEGGIE: The veggie glove is the universal vegetable glove. The glove is a one size fits all and ideal to scrub, rinse and clean potatoes, beet roots, radices, leaks, mushrooms, gourds, corn, and many more.
FISH: The fish glove is the perfect aid to hold, clean and scrub seafood and fish without getting smelly fingers. The glove includes the new and innovative de-scaling patch.

CESTELLI
WASHRACKS

Realizzati in polipropilene, stampati unipezzo a doppio spessore. Resistenti agli urti ed alte temperature, agenti chimici e residui alimentari. Concepiti per assicurare una protezione ottimale a bicchieri e stoviglie, il loro design permette inoltre una perfetta circolazione dell'acqua di lavaggio ed una rapida e perfetta asciugatura. Facili e veloci da impilare. Leggeri e maneggevoli, tutti i cestelli di base sono dotati di maniglie integrali su tutti i lati.

Molded in one-piece with double-wall construction made of polypropylene. Resistant to shock, high temperatures and chemicals. Designed to give optimum protection to glass and chinaware as well as to maximise water circulation and drying in professional dishwasher. Easy and quickly stackable without tools or screws. Base racks have comfortable hand grips on all four sides facilitating handling.

Contenitori in polipropilene trasparente per alimenti. Estremamente resistenti alle sollecitazioni, offrono protezione sicura nel trasporto. Dimensioni adatte a EURO-pallets. Adatti al lavaggio in lavastoviglie, design studiato per consentire il defluire dell'acqua. Coperchi di colore diverso facilitano l'individuazione del contenuto. Impilabili, a pieno la loro robustezza consente un'elevata capacità di sovrapposizione. Fessure di aerazione per un costante ricambio d'aria.

Clear polypropylene construction, full compliance with food contact requirements. A removable tower insert provides total flexibility. Strong, it prevents dish breakage in transport. Dimensions suitable to EURO-pallets. Lids are tightly fitting, hygienic, dish-washer safe. Covers available in different colors, assure easy and quick content identification. Stackable once empty, their strongness provides high loading density once full. Ventilation holes assure constant aircirculation. Design studied to enable water flow while washing.

CONTENITORI QUADRATI - SQUARE CONTAINERS

HACCP

Contenitori impilabili. Disponibili in un copoliestere alternativo privo di bisfenolo A (BPA free) trasparente per identificare il contenuto o in resistente polietilene bianco. Graduati: rosso USA e blu per i litri. Impugnature resistenti per un trasporto più pratico e fori di drenaggio per il lavaggio e un'asciugatura accurata. I contenitori in copoliestere resistono a temperature comprese fra i -40°C e i 100°C. I contenitori in polietilene resistono a temperature comprese fra i -28°C e i 65°C. Lavabili in lavastoviglie. Coperchi con linguetta con chiusura ermetica a pressione. Disponibili in due misure adattabili a tutti i contenitori.
Square stackable containers. Available in clear copolyester (BPA-free) for visibility or in white polyethylene. Smooth surfaces for easy cleaning. Precise measurement gradations in red/blue. User-friendly, easy-grip handles with dishwasher drain hole. Nest for compact storage. Temperature range, copolyester containers: -40°C to 100°C. Temperature range, polyethylene containers: -28°C to 65°C. Dishwasher safe. Tight-fitting lids with flap. Available in two sizes to fit all containers.

CONTENITORI ROTONDI - ROUND CONTAINERS

HACCP

La forma tonda permette una migliore circolazione dell'aria per la conservazione in frigorifero o congelatore. Impilabili con maniglie, in polipropilene trasparente. Resistono a temperature comprese fra i -28°C e i 65°C. Lavabili in lavastoviglie. I coperchi sono a chiusura ermetica con doppia barriera e linguetta di apertura nell'angolo. Consentono l'indicazione della data e del contenuto in un'apposita area di scrittura. Disponibili in due misure adattabili a tutti i contenitori.
In clear polypropylene. Stackable. Nest for compact storage. Reinforced rim for added strength. User-friendly, easy grip handles with dishwasher drain hole. Temperature range: –28°C to 65°C. Dishwasher safe. Tight-fitting lids with double barrier and opening flap in the corner. Writing area on the cover to specify date and content. Available in two sizes to fit all containers.

Il polipropilene è un materiale idoneo per il contatto con sostanze alimentari. Non cede odori e sapori anomali agli alimenti ed è facilmente lavabile e sanificabile dopo il suo utilizzo. I contenitori isotermici sono ideali per proteggere gli alimenti da sollecitazioni di tipo meccanico grazie allo spessore ed alla struttura a cellula chiusa; sono leggeri e privi di sporgenze e spigoli vivi per tutelare la sicurezza degli operatori durante le operazioni di movimentazione e trasporto. Resistenti, igienici, ecologici e riciclabili al 100%, sono compatibili al lavaggio e alla disinfezione industriale con detergenti e disinfettanti, acqua calda e vapore umido fino alla temperatura di 110°C (HAACCP System). Sono idonei a proteggere gli alimenti da sollecitazioni termiche grazie alle proprietà coiberanti del polimero espanso il quale possiede un coefficiente di resistività (Lambda) di 0,039 W/mk e garantisce una caduta termica di 1,5-2,5°C/H/contenitore.

The polypropylene is certified as material suitable for contact with food. It does not hand over odours or flavours to foods and it is easy to wash and disinfect after use. The isothermal containers, entirely made of closed-cell expanded polypropylene, are ideal to protect food from mechanical stresses; they are light and free of protrusions and sharp edges in order to guarantee the operators' safety during handling and trasport operations. They are resistant, hygienic, economic, 100% recyclable, suitable for industrial washing and disinfection with detergents and disinfectants, hot water, and wet vapour up to a temperature of 110°C (HACCP System). These containers are suitable to protect food thermal stresses thanks to the insulating properties of the expanded polymer which has a resistivity coefficient (Lambda) of 0.039 W/mk and guarantees a thermal loss of 1.5-2.5°C/H/container.

In polipropilene, ignifugo a norma di legge. Parti meccaniche in acciaio inox. Angoli arrotondati e superfici lisce, per una facile e veloce pulizia. Coperchio staccabile. Si possono impiegare sacchi standard con capacità 70 lt. Ideale per l'utilizzo in gruppo, nei casi di raccolta differenziata. Apertura del coperchio azionata da pedale. La speciale dinamica di apertura e chiusura del coperchio è in grado di soffocare le fiamme e non consente l'ingresso di aria nuova all'interno del raccoglitore. - *Polypropylene construction, fire-proof. All mechanical parts are made in stainless steel. Its rounded off corners and smooth surfaces make it easy and quick to clean. The lid can be removed. You can use standard disposable 70 lt bags. Ideal to be used in group, when a separate refuse collect is requested. Lid opening is operated by pedal. The special opening and closing lid system is able to put out fire and does not allow oxigen to enter into the bin.*

PORCELLANA - *PORCELAIN*

Arthur Krupp®
PORCELAIN

Arthur Krupp® Porcelain — Made in Germany – presenta un assortimento di articoli in porcellana, una gamma professionale pensata per tutte le occasioni d'utilizzo del settore Ho.Re.Ca., dalle mise en place formali ed eleganti a quelle all'insegna dei mix and match più creativi fino a raffinati banchetti e buffet. La qualità del materiale utilizzato, unitamente agli spessori rinforzati, rende queste porcellane estremamente resistenti a urti e rotture, conferendo loro caratteristiche di praticità e durevolezza. Ideali per un utilizzo quotidiano e duraturo.

Arthur Krupp ® Porcelain - Made in Germany - introduces a comprehensive range of items in porcelain, a wide selection of professional products designed to meet any needs of the Ho.Re.Ca. sector. Whether classic and elegant mise en place, a creative mix and match, or for a refined buffet, AKP is the right solution. The high-quality materials and the reinforced edges make these items extremely resistant against chipping, giving them the distinctive features of versatility and durability for daily use.

P SERIE LIVING

Una linea completa capace di coniugare assortimento, bellezza, robustezza e funzionalità, realizzata in acciaio inox. Oggetti di qualità per apparecchiare le tavole ed i buffet più raffinati, ma anche per disporre quotidianamente di una cucina super-attrezzata. Il modo più pratico per servire con eleganza e facilità ogni tipo di pietanza dagli spaghetti alla carne, pesce, pane, verdure, formaggi e frutta ma anche piccoli alimenti come dolciumi, olive e sottaceti. Niente potrà sfuggire inavvertitamente!

A complete stainless steel line, that is able to join assortment, beauty, strenght and functionality. Quality items that can be used in order to set the most charming tables and buffets, but also in order to have a well-equipped kitchen. The easiest way to serve with charm any kind of dishes: from spaghetti to meat, fish, bread, vegetables, cheese and fruit. It is also indicated for tiny preparations such as sweets, olives and pickles. Nothing will unintentionally escape!

Piani in ardesia naturale.
Eccellente immagazzinamento del freddo, la superficie è protetta da una speciale vernice alimentare idro/liporepellente. Non idonei al lavaggio in lavastoviglie. Gli angoli dei piani sono spezzati (anzichè tagliati) per evidenziare la tipica struttura del materiale. Con piedini antiscivolo.

** Spessore ardesia. - Material thickness.*

Natural slate trays.
Excellent coldness retention, sealed with clear vanish, food safe, waterproofed surface, oil and liquid repellent, not dishwasher proof. The edges of the trays are broken to show the typical structure of the natural material. With anti-slip foots.

La Fondue Bourguignonne è una tipica preparazione svizzera, che consiste nel rosolare dei cubetti di carne (preferibilmente controfiletto di manzo) nell'olio bollente e poi intingerli in varie salse.
Fondue Bourguignon is a typical Swiss dish. Tender, thinly-sliced pieces of beef cubes (preferably sirloin) cooked in hot cooking oil then dipped in flavorful sauces.

PEUGEOT

MACINE
MILLS

MECCANISMI - *MECHANISMS*

PEPE - *PEPPER*

Il meccanismo è dotato di una doppia fila di denti elicoidali che catturano il grano, lo spingono verso il basso e lo bloccano per macinarlo perfettamente. Subisce un trattamento brevettato che protegge l'acciaio dalla corrosione pur mantenendo la sua affilatura e resistenza all'usura. Per ottenere i migliori risultati, si consiglia di utilizzare solo pepe in grani secchi da 5 mm o meno di diametro. Si possono macinare pepe verde, nero, e bianco. Le bacche rosse possono essere macinate solo se miscelate (max 15%) con altri grani di pepe. Semi di coriandolo secchi sono anch'essi adatti per il meccanismo macina pepe.

The pepper mechanism is equipped with a helix-shaped double row of teeth that guide and hold the peppercorns for a perfect grind. It has a patented treatment that protects the steel from corrosion while maintaining its sharpness and wear resistance. To get the best out of your Peugeot pepper grinding mechanism, we recommend to use peppercorns with a diameter of 5 mm (¼") or less. Black, white and dry green peppercorns can be ground in Peugeot pepper mills. The pink berries can be ground only if in a blend (max 15% pink) with one of these other peppercorns. Dried coriander is also suitable for the pepper mechanism.

SALE - *SALT*

Il meccanismo per il sale Peugeot è disegnato per macinare sale marino grosso. Realizzato in acciaio inossidabile resiste alla corrosione provocata dal sale asciutto. Non usare con pepe ed altre spezie, con sale di mare umido o con fiore di sale (Guérande, Ré, Malton, sel rose...). Per ottimizzare la resa del meccanismo si consiglia di utilizzare sale con un diametro di 4 mm.

The Peugeot salt mechanism is designed to grind cooking salt. It is made of stainless steel and is not sensitive to salt corrosion. To get the best out of your Peugeot salt grinding mechanism, you should use: salt with a diameter of 4 mm (3/16") or dry coarse salt: dry sea salt or rock salt. Do not use for pepper or any other spice. Do not use with wet sea salt or flowers of salt, Guérande, Ré, Maldon, pink salt, etc.

SALE UMIDO - *WET SEA SALT*

Un innovativo sistema brevettato appositamente progettato per sale marino bagnato la cui consistenza naturale ed il contenuto di umidità non permettono l'uso di un comune macinasale. Il meccanismo assicura un'ottima macina, un'uscita costante, e una spirale che mescola il sale affinchè non si attacchi. Esclusivo meccanismo di ceramica, Made in France.

A specially designed mill for wet sea salt. The natural consistency and moisture content do not allow the use of an ordinary salt mill. Innovative patented system for a high-performance grind without blockage even with very humid or compressed salt. This specific mechanism is composed of 3 stops ensuring both mechanism resistance and constant output, and an anti-clogging spiral which shuffles the salt in the reservoir. Peugeot ceramic exclusive mechanism, Made in France.

PEPERONCINO - *CHILI PEPPER*

Questo meccanismo è un prodotto esclusivo Peugeot. Il modello brevettato ha un sistema di pre-taglio e un meccanismo che permettono di macinare il peperoncino essiccato. Come il macinapepe, il meccanismo subisce un trattamento brevettato che protegge l'acciaio dalla corrosione pur mantenendo la sua affilatura e resistenza all'usura.

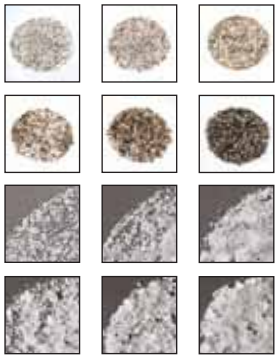

The chili pepper mechanism is a Peugeot exclusive product. This patented model has a pre-cutting system and a mechanism that grinds dry chili pepper. Like the pepper grinder it has a patented treatment that protects the steel from corrosion while maintaining its sharpness and wear resistance.

NOCE MOSCATA - *NUTMEG*

La macina è dotata di una doppia lama per grattugiare in acciaio inox e di un robusto dischetto uncinato che permette di grattugiare l'intera noce molto finemente.

The Peugeot nutmeg mill is equipped with a double stainless steel blade/grater and a strong claw which enables the nutmeg to be very finely ground.

IMPOSTAZIONE DELLA MACINA - *ADJUSTABLE GRINDING SYSTEM*

PER MACINE MANUALI ED ELETTRICHE - *FOR ELECTRIC OR MANUAL MILLS*

Sistema brevettato che permette una regolazione predefinita della macinatura. 6 Livelli per il pepe e 6 Livelli per il sale. Facile: basta ruotare l'anello alla base della macina e selezionare una delle posizioni, ognuna corrisponde ad una determinata grana.

Patented system that enables precise grind adjustment settings. 6 pre-defined levels of grind for pepper and 6 for salt. Easy: just rotate the ring at the base of the mill and select one of the positions, each corresponding to a specific grain.

REGOLAZIONE CLASSICA - *CLASSIC ADJUSTABLE SYSTEM*

Negli apparecchi elettrici la rotella di regolazione si trova sotto il meccanismo di macinatura. Negli apparecchi manuali la regolazione si effettua ruotando il dado/pomolino. Ruotare in senso orario per ottenere una macinatura più fine, in senso antiorario per ottenere una macinatura più grossa.

Thumbwheel grind adjustment on electric grinders is found below the grinding mechanism. Grind adjustment nut on manual mills, turn the nut. Clockwise to obtain a finger grind, counter-clockwise to obtain a coarser grind.

Incl.: guarnizione per setaccio in silicone, setaccio inox, tubo di ventilazione inox, tubo di silicone, scovolino. - *Contains: sieve gasket 100% silicone, stainless steel internal sieve, s/s ventilation tube, silicone tube, cleaning brush.*

Il kit di infusione rapida permette di infondere un liquido con sapori diversi in tempo rapido. Unire gli aromi solidi (erbe, spezie, frutta, ecc.) con il liquido (alcool, olio, acqua, aceto, ecc.) nel sifone ed immettere una carica per panna (art. 41455-AA). Il sapore degli aromi solidi viene infuso nel liquido, che sviluppa così un gusto unico. - *Rapid Infusion enables a liquid to be infused with different flavors in the shortest possible time. First, combine aromatic solids (e.g. herbs, spices, fruit) and a liquid (e.g. alcohol, oil, water, vinegar) in the Whipper. By applying pressure into the Whipper using a cream charger (#41455-AA), the flavor of the solids becomes infused into the Liquid, which develops a unique taste.*

Per la preparazione di acqua gassata, bibite e cocktail effervescenti. Bottiglia in acciaio inox di alta qualità. Valvola di regolazione della pressione per il massimo comfort e sicurezza. Impugnatura antiscivolo in silicone.
For the preparation of pure soda water, sparkling refreshments & cocktails. High-quality stainless steel bottle. Pressure control valve for maximum comfort and safety. Ergonomic charger holder with non-slip silicone grip.

44108-02	0,75	●

Principi di densità.
Per i cocktail analcolici il contenuto di zucchero dei vari liquidi determinerà la differenza di densità. Bagnare il galleggiante prima dell'uso. Versare a uno a uno i liquidi nel cocktail master, dal più dolce al meno denso, per ottenere un fantastico cocktail multicolore.

Density principles.
For alcohol-free drinks the density difference depends from the quantity of sugar of each liquid. Wet the float before use. Pour the liquids one after another in the cocktail master from the sweetest to the less dense, to get fantastic multicolored cocktails.

Pompa sottovuoto per vino
Vacuum pump wine preserver
Wein-Vakuum-Pumpe
Pompe vacuum à vin
Bomba vacío vino

art.
41499-00

Un sistema sorprendente per preservare i vini e mantenerne integro l'aroma. Maneggevole e facile da usare. Estrae l'ossigeno bloccando il processo di ossidazione. Fornito con 2 tappi in silicone, riutilizzabili. Un must per gli amanti del vino - *An amazing new way to preserve wines. It pumps out the oxygen that turns open bottles of wine into vinegar. Just place the pump over the reusable stopper and, in one simple step, draw all the air out of the bottle and vacuum seal it to enjoy another day. A must for the wine lover! Easy to use and handy for keeping the bloom on your favorite vintage.*

VASSOI - *TRAYS*

VASSOI IN LAMINATO, ANTISCIVOLO - *NON-SKID LAMINATED TRAYS*

Vassoi in laminato con superficie di gomma antiscivolo, eccellente resistenza alle sostanze chimiche, sbalzi termici, graffi e rottura. Buona resistenza alle macchie. Lavabili in lavastoviglie con periodicità normale. Resistenza alla temperatura: da -10% a +100°C. - Per motivi tecnici di stampa i colori indicati potrebbero non corrispondere all'originale. - *Non-skid surface trays with laminated bottom, execellent resistance to chemicals, sudden temperature changes, scratches and breakage. Good resistance to spots. Dishwasher safe under normal frequency. Temperature resistance: from -10% to +100°C. Due to the catalog printing process, the colors shown may not be exact.*

Il Vassoio Wave è amico dell'ambiente. Design ergonomico e moderno con comodi bordi. Finitura ruvida naturale. Non solo è confortevole in mano ma è anche unico ed elegante allo stesso tempo. Può essere utilizzato come piatto di presentazione. Wave è disponibile in 3 versioni naturali che rispecchiano a fondo l'aspetto ecologico del vassoio. Idoneo al lavaggio in lavastoviglie (asciugare prima di impilare).
Wave is an environmentally friendly Tray. 90% ecological, manufactured from renewable materials. Modern, ergonomic design with comfortable edges. Natural rough finish. Not only comfortable in hands but unique and elegant at the same time. It can be used as showplate. Wave is available in 3 versions that fully reflect its ecological aspect. Suitable for dishwashers (dry before stacking).

BUFFET & PRESENTATION

Approfitta delle qualità della melamina!
I pratici pezzi a servire sono al 100% in pura melamina e offrono vantaggi che i Professionisti con il loro utilizzo quotidiano potranno apprezzare: di prima qualità, esteticamente assomiglia alla porcellana; estremamente resistente alla rottura, non produce schegge pericolose; superficie liscia e lucida; robusta e solida, lavabile in lavastoviglie e utilizzabile in frigo/freezer; resistente da -50°C a +100°C; non assorbe odori e sapori; ideale per una presentazione degli alimenti ecocompatibile ed igienica.

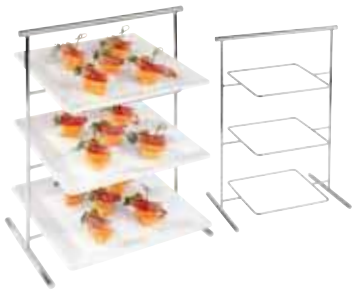

Take advantage of the merits (qualities) of melamine!
These practical serving pieces are 100% pure melamine and offer benefits that all Professionals will appreciate with the everyday use: top quality, looks like premium porcelain; extremely resistant to breakage: does not produce dangerous splinters; hard, glossy surface; sturdy and durable: dishwasher safe, suitable for refrigerator and freezer; resistant from -50 ° C to +100 ° C; does not absorb odors and flavors; ideal for an environment-friendly and hygienic food presentation.

Sistema composto da 30 vassoi espositori, nei colori bianco e nero. Disponibili 5 coperchi trasparenti in SAN idonei ad ogni formato. Un flessibile sistema modulare per banchi con profondità 70-90 cm, nessuno spazio vuoto nel bancone, diverse capacità e design uniforme. Il bordo stabile permette di impilare i contenitori facilmente e velocemente, niente più graffi o contenitori inceppati.

System consist of 30 bowls and trays each in black and white color. Properly to the bowls 5 transparent SAN covers are available. Advantages: flexible modular system for counter depth 70 to 90 cm, no gap inside the counter, variable filling quantities and uniform design. The stable edge allows an easy and fast stackle and therefore no scratching or jamming of the bowls.

Frame BuffetSystem

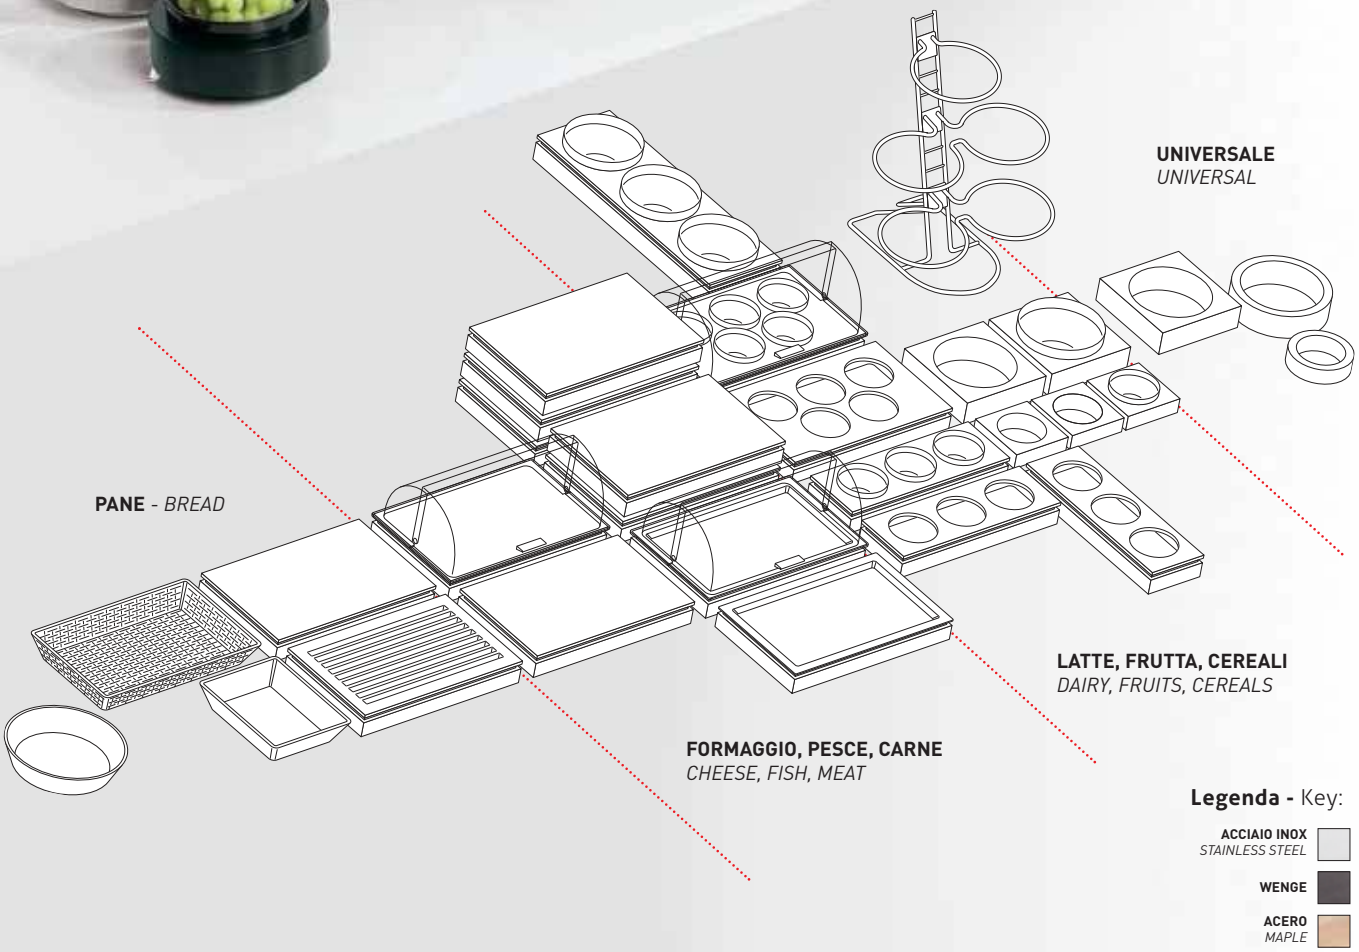

by Michael Sieger / sieger design

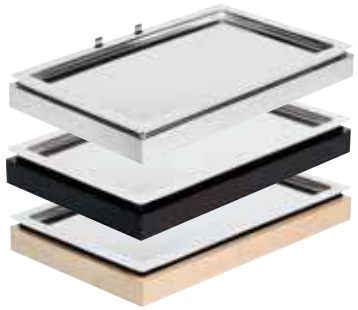

Gli elementi che compongono il sistema sono modulari, rendendo la composizione estremamente versatile. La natura impilabile di ogni elemento consente uno stoccaggio efficiente, ottimizzando lo spazio. Le strutture porta ciotole sono impilabili sia senza che con le ciotole. Tutti gli elementi del sistema sono veloci e semplici da utilizzare, facili da impugnare sotto gli inserti (tagliere, inserto porta ciotole, vassoi, ecc.) come pure sotto la base dei moduli stessi anche quando sono impilati. Le strutture in acciaio inox ad esempio possono essere utilizzate anche senza inserti come letto per contenere ghiaccio per la presentazione di composizioni di frutti di mare o altri alimenti. Le strutture porta ciotole in acciaio inox sono costruite con una doppia parete permettendo al cibo di mantenere la temperatura più a lungo.

The system elements feature a modular construction, making them extremely versatile. The stackable nature of every element enables space-efficient storage. Bowl boxes can even be stacked with or without bowls. All the system elements are quick and simple to use, with easy to grip edges both underneath the cover panels and underneath the base modules themselves. Cool plates can be used without modular cover panels for a bed of crushed ice. Stainless steel bowl boxes are not only attractive but also insulated, allowing food to maintain its temperature for longer.

SCULTURE GHIACCIO - ICE SCULPTURES

Stampi riutilizzabili per sculture di ghiaccio in speciale materiale plastico con l'aggiunta di uno strato esterno di resina arancione che conferisce ai due gusci più elasticità e resistenza durante l'espansione del ghiaccio. La guarnizione siliconica posizionata all'interno del guscio ed il sistema di fissaggio composto da un kit di volantini non permettono la fuoriuscita dell'acqua. Si consiglia di riempire lo stampo con acqua e piccoli pezzetti di ghiaccio. Per ottenere una scultura più trasparente è consigliabile prolungare il processo di congelazione. La temperatura ottimale è tra i –10°C e –20°C. Prima di aprire lo stampo lasciare a temperatura ambiente per 10 minuti. Aprire lo stampo quando si trova in posizione orizzontale. Estrarre la scultura dallo stampo, rimuovere il ghiaccio in eccesso con l'aiuto di un cutter, pulire e lucidare la scultura con un cannello e/o un panno.

Reusable molds for ice sculptures made of special plastic with an additional external orange coating of resin which makes the two shells more elastic and more resistant against ice expansion. The silicone trimming inside the shell and the fixing screws do not let the water come out. We suggest to fill the mold with water and small ice cubes. In order to obtain a more transparent sculpture we suggest to prolong the freezing process as much as possible. Recommended temperature between –10°C and –20°C. Before opening the mold leave it at room temperature for 10 minutes then open the mold horizontally on a table and extract the sculpture. Remove exiding ice with a cutter and polish the sculpture with a mini torch and/or a cloth.

Cannello con accensione elettronica a fiamma regolabile. Serbatoio ricaricabile con gas per accendino. Pratico da tenere in mano. Indispensabile per tutti i lavori di incollaggio dello zucchero e per crème brûlèe, torte di ricotta, meringa, sculture in ghiaccio, crostata di frutta, etc.
Mini torch with automatic ignition, adjustable flame. To be filled with gas for lighters. Easy to use. Necessary for gluing sugar works and crème brûlèe, cheese cake, meringue cake, ice sculptures, fruit tarts, etc.

ATLANTIC BUFFET SYSTEM

Pensati e ideati nelle versioni rotonde, rettangolari con aperture differenziate per soddisfare ogni esigenza, gli scaldavivande ABS-Atlantic Buffet System interpretano la funzionalità e la flessibilità contemporanea. Semplici nella forma, impilabili, igienici poiché realizzati in acciaio inox, facilmente smontabili in tutte le loro parti per una pulizia impeccabile, gli elementi appartenenti alla linea nascono dall'expertise che solo Sambonet Paderno è in grado di garantire alla ristorazione d'eccellenza. Grazie alla trasparenza del nuovo oblò in vetro temperato, i coperchi offrono visibilità alla prelibatezza dei contenuti degli scaldavivande. Il meccanismo di chiusura graduale e lo speciale metodo di rimozione dei coperchi rende ancora più performante l'intero Sistema.

Conceived and designed in the round and rectangular versions with different opening systems to meet any need ABS-Atlantic Buffet System chafing dishes combine contemporary flexibility and functionality. All the parts of these simple-shaped, stackable, 100% stainless steel hygienic items can be easily taken apart for thorough cleaning. The line comes from the expertise that only Sambonet Paderno can offer to top catering services. The lid is equipped with a new, transparent window made of unbreakable glass that lets you see the delicacies held in the chafing dishes. The gradual closing mechanism and the special lid removal method make the whole System even more effective.

Gli scaldavivande ABS-Atlantic Buffet System sono idonei per ogni tipo di cottura, gas, elettrica, vetroceramica e induzione* per la quale si raccomanda l'utilizzo delle piastre proposte dall'azienda, disponibili sia nella versione da appoggio art. 58162-RA sia da incasso art. 58162-RB. Questi piani ad induzione sono infatti l'ideale per tutti i buffet ove indispensabile mantenere i cibi ad una temperatura ottimale per la conservazione dei sapori.

ABS-Atlantic Buffet System chafing dishes can be used on any heat source, gas, electric, glass-ceramic and induction. We recommend our free-standing (58162-RA) and built-in (58162-RB) cookers. As a matter of fact, these induction cookers are ideal for any buffet where food should be kept at a specific temperature to preserve flavours.*

*NON UTILIZZABILI su piani ad induzione con riconoscimento di frequenza. - *NOT SUITABLE for induction hobs with frequency identification.*

P TAGLIAPASTA - CUTTERS PA plus

Paderno ha sviluppato questa gamma di tagliapasta in materiale composito sotto il marchio Paplus®. Materiale innovativo, non poroso, lavabile in lavastoviglie e sterilizzabile, conforme alle norme europee relative ai materiali in contatto con alimenti. Leggeri e maneggevoli, presa confortevole grazie ai bordi arrotondati. La costruzione unipezzo li rende igienici e facili da pulire. Resistenti e indeformabili dal taglio sempre perfetto. Ottimi anche per preparazioni a caldo in quanto non assorbono calore e quindi non scottano.

Paderno has developed these new pastry cutters made of the composite material branded Paplus®. This material is non-porous, dishwasher safe can be sterilized and meets all requirements of EU hygiene regulations. Light and handy, provide a comfortable grip due to their rounded tops. Hygienic, easy to clean being of a single piece. Long lasting, durable cutting edge, do not lose their original shape.
Excellent also for hot preparations, do not absorb heat and therefore do not burn.

Sacchetti usa e getta. Ruvido all'esterno per assicurare una salda impugnatura, liscio all'interno per facilitare la fuoriuscita del prodotto.
Disposable icing bags. Rough outside to ensure a firm grip, smooth inside to facilitate the product release.

Realizzato in gomma alimentare. Non trasuda, anche quando si utilizzano composti grassi, garantisce grande sensibilità, morbido e maneggevole. Facile da pulire, si può mettere in lavastoviglie. Non assorbe odori. Ottimo grip antiscivolo. Resistente alle sollecitazioni di pressione con composti molto duri (non deforma lateralmente).
Made with food rubber. It does not sweat, even with fat compounds. Extremely soft and handy and perfectly welded in the joints to avoid infiltration of product. Very easy to clean, dishwasher-safe. Perfect antislip grip. High resistance to pressure stress also with hard compounds (it does not warp).

art.	dim. cm.
47692-03	24x24

Mini chitarra per ganache con base in plastica dimensione utile 24x24 cm e telai in acciaio. Include un telaio da 22 mm, un piatto in acciaio, una spatola in plastica ed alcuni accessori per la manutenzione. Adatta a piccole produzioni è ideale per scuole, ristoranti, gelaterie, piccole cioccolaterie. Può essere facilmente posizionata in piccoli spazi e utilizzata solo all'occorrenza. Non usare per torte congelate, tavolette di cioccolata, impasti duri in genere.

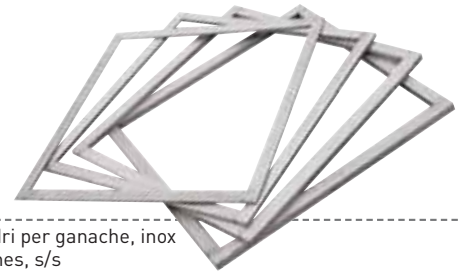

Mini guitar for ganaches with plastic base usable size 24x24 cm and steel frames. Includes a frame of 22 mm, a steel plate, a plastic spatula and some accessories for maintenance. Suitable for small-scale production, is ideal for schools, restaurants, pubs, small chocolate shops. It can be easily placed in small spaces and used only where appropriate. Do not use for frozen pies, chocolate bars or generally hard paste.

SILPAT®

Supporto antiaderente ideale per la cottura di tutte le viennoiseries (cornetti, brioches e simili) e tutti i tipi di pasticceria da panetteria cotti in teglie. Ideale anche per la lavorazione dello zucchero.
Non-stick sheet ideal for backing brioches and buns as well as any kind of sweet bread backed in sheets. Ideal also for working sugar.

SILPAIN®

Supporto antiaderente areato ideale per la cottura di pani e per la cottura in bianco di fondi per crostate.
Non-stick perforated sheet ideal for baking bread and tarts.

ROUL'PAT®

Grazie al rivestimento in silicone su entrambi i lati, il supporto Roul'pat non scivola sul piano di lavoro. Permette di lavorare ogni tipo di pasta, ma anche di lavorare con grande facilità il croccante.
The silicone coating on both sides prevents the sheet from slipping. Perfect to prepare any type of dough and it also enables to easily prepare macaroon.

Pratici e funzionali, ideali sia per la surgelazione che per la cottura anche in forno a microonde. Possono essere utilizzati a temperature che variano da -60°C a +260°C. Facili da sformare, non attaccano e non necessitano di preparazione. Facili da lavare sia a mano che in lavastoviglie. Formato 17,5x30 cm equivalente a 1/3 Gastronorm ed a 1/4 del formato della teglia da pasticceria (cm 60x40). Realizzati in purissimo silicone conforme alle norme internazionali che regolano l'utilizzo di materiali destinati al contatto con sostanze alimentari: D.M. n. 104 del 21/03/1973 (legislazione italiana) - Arreté du 25/11/1992 (legislazione francese) - BGVV (legislazione tedesca) - FDA (legislazione statunitense).

Pratical and functional, perfect for freezing or baking also in microwave ovens. Can be used with temperatures ranging from -60°C to +260°C. Easy to demold, does not stick. No need of preparation. Can be washed manually as well as into dishwashers. Dimension 17,5x30 cm equal to Gastronorm 1/3 and 1/4 of Baknorm size (cm 60x40). Manufactured in conformity with international regulations concerning food contact: D.M. no. 104 of 21/03/1973 (Italian law) - Arreté du 25/11/1992 (French law) - BGVV (German law) - FDA (USA law).

DEMARLE® FLEXIPAN

Flexipan®, un materiale che unisce fibra di vetro e silicone alimentare. Una combinazione che conferisce al prodotto una solidità e una longevità senza pari, oltre a straordinarie proprietà antiaderenti. Resistenza alla temperatura da -40°C a +280°C. Flexipan® è conforme alla regolamentazione europea e americana riguardante i materiali destinati al contatto con alimenti. Dal febbraio 1997 ha ottenuto la certificazione NSF®. Flexipan® ha ottenuto il riconoscimento da parte di FDA ed è approvato da LNE.
Altri prodotti e misure sono disponibili su richiesta.

Flexipan® is a combination of silicone and fiberglass designed for food use. This unique combination gives Flexipan® unequalled strength and durability, combined with exceptional non-stick properties. Heat resistant from -40°C to +280°C. Flexipan® has been granted NSF® International certification since February 1997. Approved by FDA (Food and Drug Administration-USA) and LNE.
Other products and sizes avilable on demand.

BIGNE' - PUFFS - WINDBEUTEL - CHOUX - BOLLOS

Supporto alveolare Silform® per cottura di pasta bignè.
Questa gamma è stata sviluppata in particolare per la pasta di bignè. Grazie alle impronte preformate, preparare bignè uguali e regolari diventa facile. Non è più indispensabile nè spennellare con tuorlo nè forare la pasta. Grazie alle proprietà antiaderenti del Silform®, l'estrazione è impeccabile. La base del bignè sarà chiara e netta conferendogli così una perfetta stabilità.
Silform® for Choux Pastry.

This range has been developped especially for cream puffs dough.
The pre-formed shapes make easy obtaining perfect, regular and same size cream puffs. Neither greasing the sheet nor spiking the dough is required before baking. The non-stick property of the material allows an easy and perfect extraction of the pastries. The base of the puff will be clear and plain for a perfect stability.

NOTE - NOTES

-Le misure, caratteristiche ed illustrazioni dei prodotti sono indicative e soggette a variazioni senza preavviso qualora esigenze tecnico produttive lo richiedessero.
-The pictures illustrated and data are representatives. We reserve the right to alter at any time the specifications stated without notice, whenever technical requirements shall so demand.
-Fotos und Abmessungen sind nur als information zu verstehen. Wir behalten uns das Recht vor, die angegebenen Spezifikationen jederzeit zu ändern, sofern es aus produktionstechnischen Gründen erforderlich ist.
-Les photos et dimensions indiquées sont indicatives. Nous nous réservons le droit de modifier à tout moment les spécifications techniques, si la situation l'exige.
-Fotos, datos y medidas que aparecen en este catálogo son indicativos y susceptibles, sin previo aviso, de modificación por exigencias técnicas o de producción.
