K6ECP05TT

ELECTRIC PASTA COOKER 12 lt.

PRODUCT DESCRIPTION

Stainless steel frame. Athermic thermoset plastic knobs with useful screen printed edges.
Heating obtained through a couple of **INCOLOY-sheated heating elements**, completely immersed in water, so to ensure quick water heating and to be resistant to salty water and starch. Manually-reactivating safety thermostat against dry running. Operation through selector switch to adjust the working time of the heating elements according to the working conditions.
AISI 304 moulded work top with rounded edges for easy cleaning. Stainless steel front, side and backside panels.
Cold molded AISI 316 tank, resistant to salty water and starch, with rounded edges, overflow and starch skimming area, drain hole and small frontal perforated surface as basket support.
Water filling tap on the front panel. AISI 304 elliptical cross-section designed handles. Tank drain on the front panel to prevent casual opening. Stainless steel AISI 316 drain fitting.
Laser-cut work top finishing for "head-to-head" matching and binding fastening.
Accessories available **on demand**.
