AULIKA EVO

SHARE PLEASURE

Aulika Evo is modern and social. It is a focus of attraction for people who enjoy their coffee break not only as a moment of relaxation, but also as an opportunity for a relaxed chat and to share their ideas and feelings with colleagues and friends. With its technology and high quality manufacturing Saeco Professional guarantees perfect beverages every time.

AULIKA EVO

Made in Italy, Built for professional use.

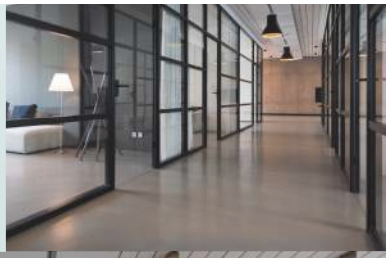

Designed for professional use, Aulika Evo provides the necessary technical characteristics for continual use, always guaranteeing a perfect dispensing, from espresso to long coffee, and from cappuccino to latte macchiato.

The large capacity of the water and coffee containers, the one-touch milk drinks in the Focus and Top versions, the latter also includes a high speed milk function that speeds up preparation time, all guarantee reliable performance even in locations with a high daily consumption.

Top quality, in every detail.

The quality of the parts, attention to every detail and its modern design make Aulika Evo the perfect professional coffee machine for work environments such as offices and small restaurants, where reliability and top quality dispensing are essential.

Thanks to the new capacitive interface with backlit icons, which offers a wide range of direct-touch drinks, you can select your chosen drink with a simple and intuitive gesture.

The dispensing area has been enhanced by the blue and white LED lighting that accompanies drink preparation, giving a touch of elegance and sophistication.
