LOW PRICE
HIGH PERFORMANCE

ECOMAX OR ECOMAX PLUS – IT'S YOUR CHOICE!

ecomax[™]
by **HOBART**

The entry-level models for those who search for a low-cost dishwasher for commercial use. Ideal for start-ups and companies with irregular washing frequency, which invest in a dishwasher for the first time. **ecomax** meets all requirements for hygienic wash results.

Model **G404**

Model **F504**

ecomax
by **HOBART** **plus**

For budget-oriented operators who seek a plus in comfort and equipment. **ecomax plus** combines all the features of a **ecomax** dishwasher and offers a plus in wash power, energy efficiency, noise reduction and ease of use.

Model **G415**

Model **F515**

ECOMAX G404 COMPACT GLASSWASHER

The fast and reliable glasswasher in compact design. Perfect for start-ups, small bars or restaurants.

FEATURES

- Electronic control with digital temperature indication for easy operation
- Rotating wash and rinse arms for an even water distribution
- Indented nozzles prevent blocking
- Integrated counter for cycles and water consumption, e.g. for control of water treatment system
- Deep drawn rack track for easy cleaning
- USB connection for easier service access
- Incl. connection cable, supply and drain hose for immediate operation
- Thermostop function for guaranteed temperatures
- Self-cleaning programme for hygienic cleanliness also in the machine
- Switchable to thermolabile temperature setting

ECOMAX PLUS G415 COMPACT GLASSWASHER

The compact glasswasher for hotels, bars and restaurants, which are washing more than hundred glasses a day.

plusFEATURES

+++ additional to ecomax +++

- + Electronic control with digital temperature indication and 3 programmes for easy operation
- + Deep-drawn wash tank for easy cleaning
- + Better energy efficiency saves operating costs
- + Double-walled housing and heat insulated front door for reduction of noise and energy losses
- + Tank strainer, coarse filter and pump suction casing secure safe operation
- + Door damping control for long life operation
- + Fully equipped with rinse pressure pump, detergent and rinse aid dispenser and drain pump
- + Optional cabinet base for ergonomic operation
- + Refill signal available with optional suction lances

ECOMAX F504 DISHWASHER

With a high capacity of up to 60 racks per hour, this dishwasher is a reliable partner for club houses, bistros, and fast-food restaurants. The practical floor unit fits under every work counter.

FEATURES

- Electronic control with digital temperature indication for easy operation
- Rotating wash and rinse arms for an even water distribution
- Indented nozzles prevent blocking
- Integrated counter for cycles and water consumption, e.g. for control of water treatment system
- Deep drawn rack track for easy cleaning
- USB connection for easier service access
- Incl. connection cable, supply and drain hose for immediate operation
- Thermostop function for guaranteed temperatures
- Self-cleaning programme for hygienic cleanliness also in the machine
- Tank strainer reduces soiling of the tank water
- Optional cabinet base for ergonomic operation

ECOMAX PLUS F515 DISHWASHER

Due to the high wash power, the double-walled housing and the robust filter systems, it is the quiet and resource-saving solution for your busy workaday life.

plusFEATURES

+++ additional to ecomax +++

- + Electronic control with digital temperature indication and 3 programmes for easy operation
- + Deep-drawn wash tank for easy cleaning
- + Better energy efficiency saves operating costs
- + Double-walled housing and heat insulated front door for reduction of noise and energy losses
- + Coarse filter secures safe operation
- + Door damping control for long life operation
- + Fully equipped with rinse pressure pump, detergent and rinse aid dispenser and drain pump
- + Refill signal available with optional suction lances

* For machine protection the water hardness should not exceed 3°dH, if higher we recommend using an integrated water softener or an external water treatment system.

** For use of an external water treatment system, an integrated rinse pressure pump is necessary.

*** Necessary flow pressure without rinse pressure pump: 2-6 bar. Flow pressure with integrated rinse pressure pump: 0,8-6 bar

HYDROLINE

WATER TREATMENT

Always the exactly right water quality for your application – whether your focus is on protecting your machine efficiently against limescale, or on ensuring that your wine glasses are free of stains after washing.

External single-chamber softener SE-H

Protects heating rods against limescale and reduces detergent consumption. Quantity-controlled automatic regeneration.

External double-chamber softener SD-H

Protects heating rods against limescale and reduces detergent consumption. Regeneration takes place parallel to the cleaning process.

Partial demineralisation cartridge STAR PD

Residue-free removal of hardness components from the water.

Full demineralisation cartridge STAR EXTRA FD

Removes all minerals from the water. For brilliant wash results for glasses and cutlery.

Reverse osmosis RO-S

Removes all minerals and particles from the water. For brilliant wash results for glasses and cutlery.

HYDROLINE	PROTECT SE-H	PROTECT SD-H	STAR PD	STAR EXTRA FD	PURE RO-S

Supply hose	R 3/4"	R 3/4"	R 3/4"	R 3/4"	R 3/4"
Drain hose	R 3/4"	R 3/4"	R 3/4"	R 3/4"	R 3/4"
Regeneration type	quantity-controlled	quantity-controlled	—	—	—
Capacity	704 l at 8°dH (total hardness)	1,083 l at 8°dH (total hardness)	13,000 l at 10°dH (carbonate hardness)	5,400 l at 10°dH (total hardness)	—
Voltage	—	—	—	—	230/50/1*
Total connected load	—	—	—	—	0.2 kW

For machine protection the water hardness should not exceed 3°dH, if higher we recommend using an integrated water softener or an external water treatment system. For a water hardness of 10°dH and up, an external upstream softening system is recommended to protect the RO-S membrane against plugging. For a water hardness of 35°dH and up, an upstream softening system is mandatory for the operation of the RO-S.

* A 230 V connection is needed on site
