Kuvings Power Blender

*ACCESSARY

Power Blender

Analog Control

NAME	KUVINGS POWER BLENDER
MODEL	KPB-351 series
COLOR	White / Silver / Red
DIMENSION	224 x 237 x 512 mm
CAPACITY	2.3L / 1.5L
ASSEMBLY	TWIST BASE
CONTROL	DIAL, BUTTON
VOLTAGE/FREQUENCY	220~240V, 50~60Hz
WATTAGE(HP)	1500W (2HP, MAX 5HP)
WEIGHT	4.2 kg
RPM	32,000 RPM

I. INTRODUCTION – COLOR, DIMENSION, ASSEMBLY, CAPACITY

II. **FEATURES** – Selling Points

Kuvings Power Blender

Power Blender

Analog Control

Powerful 5-peak-HP motor **1**

Stylish analog control with pre-programmed button **2**

Adjustable RPM for different recipes(manual speed control of 1 to 10) **3**

6-piece 3D blades for perfect blending **4**

BPA-free Tritan jar and optional stainless steel jar **5**

Twist base (3 locking points) **6**

Automatic overload protection **7**

Heat emission system **8**

Noise and vibration Prevention **9**

Easy cleaning **10**

Why choose Kuvings Power Blender?

- ✓ Equipped with a powerful motor (32,000RPM)
- ✓ Controls both manually and automatically
- ✓ Stylish analog control panel
- ✓ Large capacity jar made with eco-friendly material
- ✓ Equipped with safety sensor
- ✓ Easy cleaning

1. Powerful 5-peak-HP motor

✓The motor runs the blades at 32,000RPM(max 5HP, 1500W) effici ently blending ingredients completely.

✓It evenly blends for smooth results while minimizing any loss of nutrients to maximize the benefits.

II. FEATURES – Selling Points

Kuvings Power Blender

Power Blender

Analog Control

Powerful 5-peak-HP motor 1

Stylish analog control with pre-programmed button 2

Adjustable RPM for different recipes(manual speed control of 1 to 10) 3

6-piece 3D blades for perfect blending 4

BPA-free Tritan jar and optional stainless steel jar 5

Twist base (3 locking points) 6

Automatic overload protection 7

Heat emission system 8

Noise and vibration Prevention 9

Easy cleaning 10

2. Stylish analog control with pre-programmed button

✓Pulse – operates on and off in short cycles.

•When pressed for 2 seconds, the blender automatically operates for 20 seconds.

✓Smoothie button – pre-programmed for making smoothie.

✓Juice button – pre-programmed for making juice.

✓LED speed bar indicates the level of RPM.

3. Adjustable RPM for different recipe(manual speed control of 1 to 10)

✓Variable Speed Dial – adjust RPM by turning to the right (LED speed bar: 1 to 10 speed setting)

✓Power button – auto blending

•When pressed for 2 seconds, it blends automatically according to amount and type of ingredients.

✓RPM can be changed during the pre-programmed operation by using the speed dial.

II. **FEATURES** – Selling Points

Kuvings Power Blender

Power Blender

Analog Control

- Powerful 5-peak-HP motor **1**
- Stylish analog control with pre-programmed button **2**
- Adjustable RPM for different recipes(manual speed control of 1 to 10) **3**
- **6-piece 3D blades for perfect blending** **4**
- **BPA-free Tritan jar and optional stainless steel jar** **5**
- Twist base (3 locking points) **6**
- Automatic overload protection **7**
- Heat emission system **8**
- Noise and vibration Prevention **9**
- Easy cleaning **10**

4. 6-piece 3D blades for perfect blending

✓ The special heat treated blades rotate in three dimensions for perfect blending.

✓ The blender comes with customizable settings of low to high speed, pulse, smoothie and juice function.

5. BPA-free Tritan jar and optional stainless steel jar

✓ Come with the eco-friendly Tritan jar (BPA-free). The optional stainless steel jar is also available.

✓ Tritan jar is great for easily monitoring the blending process and stainless steel jar is great for safely grinding hard ingredients.

II. **FEATURES** – Selling Points

Kuvings Power Blender

Power Blender

Analog Control

- Powerful 5-peak-HP motor **1**
- Stylish analog control with pre-programmed button **2**
- Adjustable RPM for different recipes(manual speed control of 1 to 10) **3**
- 6-piece 3D blades for perfect blending **4**
- BPA-free Tritan jar and optional stainless steel jar **5**
- **Twist base (3 locking points) 6**
- **Automatic overload protection 7**
- Heat emission system **8**
- Noise and vibration Prevention **9**
- Easy cleaning **10**

6. Twist base (3 locking points)

- ✓ The blender operates only when the jar is fully assembled.
- ✓ The 3 locking points securely joins the jar to the base for maximum durability.
- ✓ Once assembled, LED lights will turn on with a beep sound.

7. Automatic overload protection

- ✓ The overload protection prevents overheating of the motor and ensures the safe operation of the product.
- ✓ For safety, the automatic function cuts off the circuit to prevent overloading of ingredients.

II. **FEATURES** – Selling Points

Kuvings Power Blender

Power Blender

Analog Control

Powerful 5-peak-HP motor 1

Stylish analog control with pre-programmed button 2

Adjustable RPM for different recipes(manual speed control of 1 to 10) 3

BPA-free Tritan jar and optional stainless steel jar 5

Twist base (3 locking points) 6

Automatic overload protection 7

Heat emission system 8

Noise and vibration Prevention 9

Easy cleaning 10

8. Heat emission system

- ✓ During operation, the heat emission system helps with the airflow keeping the juice fresh.
- ✓ Built in fan in the motor base circulates heat that can come from the blades and the jar.

9. Noise and vibration prevention

- ✓ Reduced tremble between the motor and the Jar to minimize noise level.
- ✓ The rubber feet stabilize the unit during the high speed of operation.

.

10. Easy cleaning

- ✓ All parts are easily disassembled for cleaning.

III. RECIPE

RECIPE

III. RECIPE

PERFECT BALANCE SMOOTHIE

50 kg of spinach
1 apple
2 bananas
30 g of lemon extract
350 ml of liquid (water, sparkling water, milk)
10 pcs of ice cubes
