Revolution™ Ice Shaver

always there, always durable.™

With Powerful 3Hp Motor

HBS1200

3 reasons to buy

Performance

- Insulated double-wall hopper reduces noise and keeps ice cold
- Precise ice portion control with Revolution™ portion system
- Prepare up to four 16 oz. drinks at a time in 64 oz. container
- User-friendly automatic cycle buttons for serving size & number of servings

Reliability

- 3-way sensor technology for jar pad, hopper, and drain
- Heavy-duty shaver blade made of durable stainless steel

Superior Service

- 2 year parts & labor warranty or 25,000 cycles, whichever comes first

ECSP

Express Care Service Program
During the product warranty dial 1-866-285-1087 toll-free to speak to a member of our highly trained technical staff. If minimal on-site maintenance cannot be performed, we'll ship a replacement product to your location. Continental US, Alaska and Hawaii only. Limitations and exclusions apply. See Operations Manual for details.

revolutionary

Get the right portion of ice every time with the Revolution™ portion system.

WAVE~ACTION™ SYSTEM

REVOLUTION™ PORTION SYSTEM

HBS1200

Ice Shaver

Revolution™ Portion System - For maximum accuracy, this unique ice portioning system counts the number of times the agitator passes the shaver blade. Regardless of the motor load, the correct amount of ice comes out every time!

Systems that calculate portions by time or weight may not be delivering consistent drink quality to your customers. Time systems don't reliably shave the right amount of ice because the motor speed will vary with the load (the motor may spin more slowly when the ice hopper is full). Systems that rely on just the weight of ice can be inaccurate during blending because of container movement. The Revolution™ Portion System eliminates these concerns by delivering the right amout of ice every time.

Double-Wall Hopper - Insulated for quiet operation and to keep ice cold.

3-Way Sensor Technology - Jar pad sensor prevents operation when container is not in place; hopper sensor prevents operation when lid is not in place. Drain sensor indicates if water is backed up in the drain. This alerts the operator to check the drain line before a messy water backup.

3 Hp Blender Motor - Powerful, heavy-duty, and built to satisfy the demands of the busiest bars.

Automatic Cycle Buttons - Let operators select serving size and number of servings for precise results.

Specifications :
Standard: Unit comes with base, ice chute, 2 piece hopper with lid, 64 oz. polycarbonate container & leveling feet

Controls: Touchpad

Motors: 3 Hp blender, 1/4 Hp shaver

Electrical: 120 V, 60 Hz, 15 amps

Weight: 55 lbs / 24.8 kg

Warranty: 2 years parts & labor

I 2 of 5: 00040094908394

Case Pack Qty: 1

NSF c UL us

Unique Features

Insulated double-wall hopper reduces noise and keeps ice cold (showing inner hopper only)

A press of the automatic cycle buttons sets the right serving size and number of servings

Unique Features

Comes with one stackable 64 oz. polycarbonate blender container with measurement marks

Wave~Action™ system continually forces mixture down into the blades for smooth results every time

Performance - With the Revolution™ Ice Shaver, you can prepare four 16 oz. drinks at the same time in the 64 oz. blending container. Serving four thirsty customers at once just got easier!
